The American Numismatic Association

The American Numismatic Association, an educational and nonprofit organization, is the largest and most active numismatic body in the world. It invites and welcomes to membership all worthy persons eleven years of age or over, who have a sincere interest in numismatics, whether they collect coins, paper money, tokens or medals, whether advanced collectors or only those generally interested in the subject without being collectors. The Association was founded in 1891, and has about 27,000 members from every state in the Union and many foreign countries. It was chartered for fifty years by Act of Congress May 9, 1912; renewed in perpetuity by Act of Congress April 10, 1962 and is a mutual organization for the benefit of its members.

All Association members, except Associate, receive the official publication, *The Numismatist*, without cost other than their annual dues. Membership applications should be accompanied by \$11.00 to cover admittance fee and the first year's dues. Succeeding annual dues are \$6.00. Non-member subscriptions, \$7.50 per year or three years for \$20.00. Single copy 75¢. For application blanks or other information, write to Executive Director, P. O. Box 2366, Colorado Springs, Colo. 80901.

The Numismatist is an illustrated monthly which has been issued continuously since its founding in 1888, consists of 128 pages or more in each number with subscribers in about sixty countries. Advertising inquiries should be sent to the Advertising Manager. All other matters for possible publication in or concerning *The Numismatist* are to be forwarded to the Editor. Unsolicited manuscripts, which are sent at the owner's risk, and other correspondence calling for a reply must be accompanied by stamped, self-addressed envelopes.

TYPICAL CONVENTION DAY—The time could be anytime from when the bourse opened in the morning until it closed at night; the day could have been any day, Tuesday through Saturday; for this was a typical bourse scene as collectors and dealers gathered in the El Cortez convention center to wheel and deal.

77th Anniversary Convention Now A Matter of History

The 77th anniversary convention of the American Numismatic Association is now history. The consensus was that it was one of the best in recent years," reports Catharine Edgerton, publicity chairman. "We tried to make it so."

If ever there is to be a convention guide on how to manage and produce a successful show, then this is the year to prepare it. San Diego was a success, it was a wonderful success. At final count there were 6150 registrants. Of these, well over two thousand paid and received their convention badge. The registrants represented forty-eight states and twenty-three countries. Somehow, nobody came from either Delaware

or Maine. Guests from Afghanistan, Australia, Brazil, Canada, England, Egypt, El Salvador, Germany, Ireland, Israel, Japan, Mexico, Netherlands, Panama, Peru, Philippines, Portugal, Spain, South Africa, Switzerland, Thailand, and Venezuela visited the bourse and exhibits.

All of the forums, business meetings, and special events were well attended. The Israel night had standing room only and some of the spe-

cial events were completely sold out. Although the final budget and expenses have yet to be audited, the show came out well in the black—second only to Miami in the amount of profit. Bourse dealers reported that sales were brisk and the auction was well attended with many good sales realized.

Monday, August 19

The 77th anniversary conclave did not open officially until the 20th; however, one of the most elaborate social functions held in conjunction with the ANA show always has been the Professional Numismatists Guild's annual banquet which culminates a day-long bourse and business meeting of the dealer group. PNG president, Dan Brown, was master of ceremonies for his association's festivities. Invited guests included all the official family of ANA and representatives from all the numismatic media, plus prominent dealers and figures from the hobby world.

Tuesday, August 20

This is the big day. Registration begins at 8:30 a.m. and already lines crowd the lobby of the El Cortez convention center, across the street from

the headquarters' hotel. By 9 a.m., the bourse area opens to dealers and the exhibit area opens to exhibitors. The dealers have until 10 a.m. to prepare for the public, the exhibitors until noon.

There are few from the official ANA family to be seen today, board and committee meetings occupy all of their time, but the San Diego convention group have the show well underway.

PNG DAY—Midway on Monday PNG broke with business and bourse to host a smorgasbord luncheon for its members and guests. Here, in a very unposed and candid shot, we find, from left to right, H. C. Schmal, Arizona exonomist; Kenn Henderson, International Nickel Co.; Mrs. Arthur Sipe; Arthur Sipe; Admiral O. H. Dodson, former ANA president; and Senora Miguel Munoz; enjoying some very delicious hors d' oeuvres.

For the wives, children and non-collecting conventioners, today was the day to visit the zoo, tour the city of San Diego and, for all of the lively set, a night club tour was arranged for the evening.

Wednesday, August 21

It did not take the crowds long to find out about the outstanding display prepared by the Bureau of Engraving and Printing from Washington. The billion-dollar display of currency, yes, one billion dollars in face value, specimens of printing by the bureau, was one thing, but to actually watch currency being printed on the convention floor was something else. It commanded top attention.

PNG DAY—One might conclude that this was an official ANA family table at the PNG banquet, starting in the lower left corner we find Don Sherer, second vice president; Mrs. Virginia Culver, governor; George D. Hatie, governor; Mrs. Arthur Sipe and Arthur Sipe, president; Mrs. Herbert M. Bergen and Herbert M. Bergen, first vice president; and Mrs. Don Sherer.

TUESDAY — Registration officially opened today and we find Mr. and Mrs. Raymon Hatfield of Lebanon, Ohio, receiving their registration packets.

TUESDAY — The exhibit area officially opened at noon and before the show closed on Saturday some 6000 visitors viewed the \$1 billion exhibit.

WEDNESDAY — The Bureau of Engraving and Printing's demonstration on the production of currency drew top crowds. Here we see Everett J. Prescott, left, and Virgil Alemeida, print some sample four subject sheets. All had to be accounted for and no souvenirs were distributed.

Official representative from BEP was Everett J. Prescott, chief of the office of manufacturing. He carefully explained the engraving and printing procedures used in the production of United States paper money. He was assisted in his demonstration by Virgil Alemeida, a plate printer from Washington, and together they produced specimen one dollar notes for the audience. Unfortunately, no samples were available, each note had to be accounted for, leaving no collector with an unusual four-subject sheet. The press used was an old-time hand-operated intaglio press.

One of the highlights of the day was the talk given at the opening business meeting by Thomas W. Wolfe, director, Office of Domestic Gold and Silver Operations, Treasury Department. His subject, quite naturally, was the U.S. gold regulations. Mr. Wolfe detailed the controls reg-

ulating the use and holding of gold by Americans. Because of its length and detail the talk will be presented in a later issue of *The Numismatist*.

Some of the greatest excitement at the business meeting came when President Arthur Sipe read a release prepared by the public relations office that the Election Procedures Committee, headed by Vice President Herbert M. Bergen, had recommended that the board rescind the action taken at its February 1968 board meeting with relation to the election of the president and vice president. The original action would have allowed the board of governors to elect the top officers. A great deal of controversy centered around this decision. The board on the previous day had accepted the committee recommendations.

Thriller for the day happened not on the convention scene but where "the surf meets the turf." The running of the American Numismatic Association Purse was held at the Del Mar race track. Race fans saw Mrs. Arthur Sipe, wife of the president and official ANA hostess, present flowers to the winning jockey. Incidentally, Mrs. Sipe placed a small wager on Many Mansions, and it was

the horse that won the ANA race. Beginner's luck!

The evening climaxed with a moonlight cruise around San Diego harbor for the young-at-heart and all conventioners fell well within that category—it seemed all were on board.

Thursday, August 22

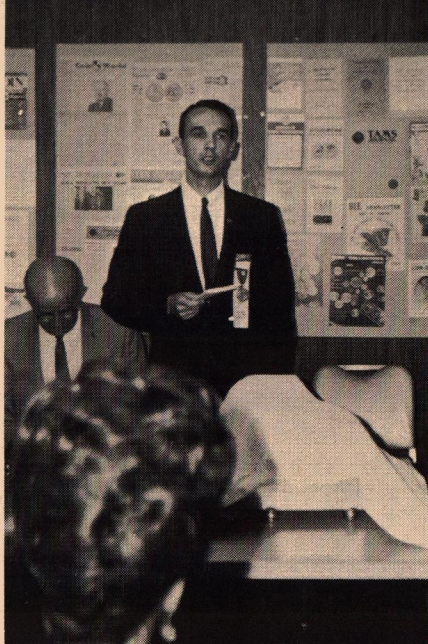

Today was the big day for many of the fringe or tangent groups who hold their annual get-togethers in conjunction with the ANA convention. The Organization of International Numismatists, a group affiliated with ANA, held its business meeting and educational forum today, as did the Young Numismatists, the Elongated Collectors and the Numismatic Literary Guild.

Highlight for the distaff side was the ladies luncheon at the Atlantis, a show place restaurant in San Diego.

Conventioners heard four outstanding speakers at the Educational Forum moderated by Maurice Gould. Mort Goodman, a well-known author in the error field presented, "The Minting Process;" George W. Wait, "Diversification of Paper Money Collections," a subject that he is well versed on. He is one of the most

WEDNESDAY — Many Mansions, with jockey William Harmatz on board, won the ANA Purse at Del Mar. Mrs. Arthur (Polly) Sipe, wife of the president, presented the flowers to the winner. Seen here are: Willard Cranney, owner; Al Baber, convention general chairman; Mrs. Sipe; Arthur Sipe; and trainer W. C. Tompkins holding the reins.

THURSDAY — Tom Becker, now of Krause Publications, Lola, Wisconsin, chaired the Numismatic Literary Guild meeting. NLG is composed of writers, researchers, publishers and editors in the hobby field. Under wraps, in front of Becker, is their annual award, dubbed the "Clemmy Award," in honor of its first recipient, Clem Bailey. distinguished experts in the field of paper money and is presently serving his second term as president of the Society of Paper Money Collectors.

One speaker who needed little introduction was Paul Vincze, the world famous medalist and a familiar figure at many ANA conventions.

THURSDAY — The line-up, the educational forum line-up, that is; from left to right: Maurice Gould, moderator; Mort Goodman; Paul Vincze; and George W. Wait. The feature is always a highlight of the convention. 1968 was no exception.

Vincze, who has designed coins for Guatemala, Ghana, Nigeria, Malawi and other countries, spoke on medals of the zodiac.

Earlier in the afternoon collectors heard Mrs. Hazel Lindstrom report on the junior activities for the past year. She noted that the youth committee had published a "How To" booklet to assist local groups in junior organizational programs and that her committee had answered some 800 letters from young collectors during the fiscal year. Mrs. Lindstrom co-chaired the Young Numismatists Committee of ANA with governor, Grover C. Criswell.

Thursday closed with the annual get-together of the Old Time Assay Commissioners. The group is composed of those who have served on the Assay Committee in past years and once each year, following the close of the Educational Forum, meet to reminisce and conduct just a little business.

Friday, August 23

This is perhaps the longest and busiest day of the convention. Tangent groups such as the Society of International Numismatist, the Token and Medal Society, the Wooden Money Collectors, and the Society of Paper Money Collectors are holding their business meetings, dinners and annual conclaves. Each is im-

On the ANA program was the award presentations at the morning session. Here recipients of the twenty-five year membership medals were acknowledged, the Heath Literary Awards presented, the awarding of the coveted Medals of Merit, National Coin Week awards, and the very anxiously awaited awards for exhibits.

The National Coin Week winners were listed in August issue of *The Numismatist*, p. 1034, so this came as no surprise to anyone. The Twenty-five Year Continuous Membership

FRIDAY — Arlie Slabaugh, an outstanding collector in many fields, cops the D. C. Wismer Award for his outstanding display of obsolete currency. Arthur Sipe presents the plaque to Arlie with Valentine Pasvolsky, 2nd place winner in obsolete currency, and Mrs. Sylvia Haffner, exhibit chairman, looking on.

FRIDAY — Arthur Sipe and Louis Werner, right, sergeant at arms emeritus, present Charles Hoskins with his Medal of Merit and accompanying plaque. Hoskins is curator of the Money Museum of the National Bank of Detroit and has done considerable work on behalf of the association.

FRIDAY — Aubrey E. Bebee, seconds after he was told that he was the recipient of the Medal of Merit, an award presented for his outstanding contributions to the hobby and the association.

FRIDAY — National Coin Week chairman Clark A. Yowell, left, presents the first place award for Class B clubs to the representative of the Totem Coin Club, Anchorage, Alaska, Mrs. Normagene Glatt, as Arthur Sipe looks on.

FRIDAY — The Outstanding Sculptor of the Year award, in the form of a gold medal, went to Frank Gasparro, chief engraver of the United States Mint. Making the presentation was Joseph M. Segel, right, president of the General Numismatics Corporation and benefactor of the award.

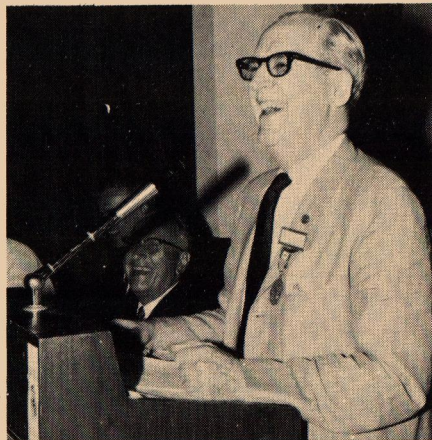

medal, a sterling silver piece with the ANA seal on the obverse and the recipient's name engraved on the other side, was presented to 118 members and two clubs this year.

The coveted Medal of Merit was awarded to four outstanding numismatists: Aubrey E. Bebee, Harley L. Freeman, Charles R. Hoskins, III, and Mrs. Lois M. Otis. Only Aubrey Bebee and Charles Hoskins were present to receive their medals. These awards are made by the board of governors for outstanding and distinguished services to the association.

The Heath Literary awards were selected by a committee of distinguished numismatists and are in recognition of articles completed in the 1967 volume of *The Numismatist*. Elected officers of the ANA are not eligible for the medallic awards but can receive a certificate in its place. First and second place awards are engraved silver medals, third through fifth are engraved bronze.

This year's winners were: silver medals: 1. J. Eric Engstrom, "Paper Money of the French Revolution"; 2. Thomas W. Becker, "In Search of the Past".

Bronze medals: 1. Alan K. Craig, "History of the Coinage of British Honduras"; 2. Eric P. Newman, "Les-

band and wife team of Opal and John Morris, who won first place in Class One and Two, respectively; Mrs. Morris for her display of U.S. Silver Commemorative Coins, John for his U.S. Paper Money — A Type of Every Issue Since 1861. Mrs. Morris also copped the best-of-show award for her display. A complete list of winners is published elsewhere in the magazine.

Saturday, August 24

This is the last day of the convention and many people are thankful for that little favor. It has been a long, long week. The day started

early with the ANA Club Representatives' Breakfast and before it was over the final business meeting of the 77th anniversary convention had already started.

The final session of the ANA auction was also held today and record prices were established for many coins. The Transportation Collectors met today but the big event was the annual banquet. Far more tickets were sold than the hotel had capacity to serve, so the banquet was moved over to the convention center causing the exhibits to be broken up earlier than had been anticipated. It created some confusion and even then there was some doubt if this 15,000 square foot hall would be big enough. Without a doubt, this was the largest banquet on record for the ANA.

The banquet was the occasion for the presentation of the Farran Zerbe Memorial Award, ANA's highest honor and this year it went to a deserving past president, Admiral O. H. Dodson. Fifty-year gold member-

ship medals were presented to Norman Shultz, George W. Wardner and William A. Philpott.

A patriotic flag pageant was presented by the United States Marine Corps and so inspired the officers that it was decided that the theme for National Coin Week-1969 be based on patriotism.

Getting back to early morning activities at the Club Representatives' Breakfast we find that for the first time since the Outstanding Club Representative Award was established in 1965, the performance record of the

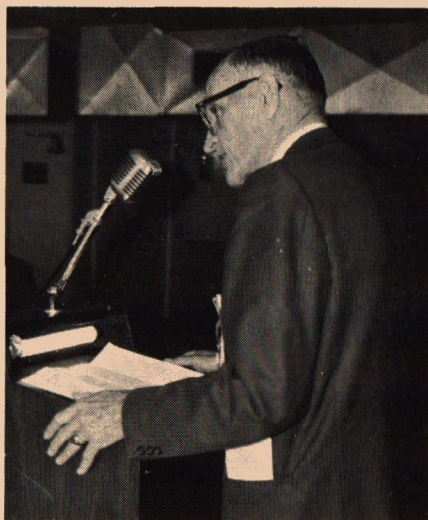

nominees was so high that the judges were unable to select an individual winner.

The result was a tie between two well-known, highly conscientious and dedicated numismatists—George A. Mather, Jr., club representative for the Liberty Coin Club of Corpus Christi, Texas, and Mrs. Kenneth R. Hershberger, representative for the Goodyear Coin Club of Akron, Ohio.

The Saturday breakfast has long been a feature of the annual convention and was attended by some 125 representatives of over 100 clubs and

SATURDAY—At the final business meeting, Chester L. Krause, publisher of Numismatic News and Coins magazine, challenges the financial program of ANA.

kindred organizations. Most of the ANA board attended, but the meeting was devoted largely to the club reps present. It was an informal affair and open to suggestions, comments, and frank discussions.

The final business meeting was held this morning and discussions from the floor centered around ANA finances and the budget for 1969. Overwhelming support was expressed for the current board and its policies.

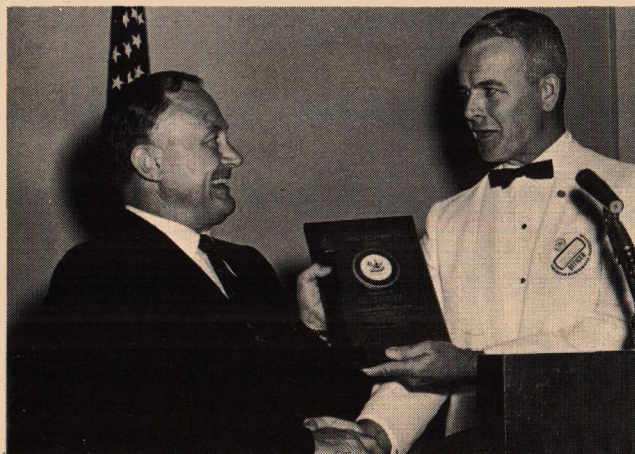

In the early afternoon a press conference was held with representatives of the Treasury Department answering questions concerning mint operations and programs for numismatists. In addition to Miss Eva Adams, director of the mint, Frank Gasparro, chief engraver of the mint, and Roy Cahoon, executive director of the joint commission on the coinage, were present to answer questions.

Although most of the press conference centered around Treasury policy, the meeting itself was held under the auspices of the 200th anniversary committee for San Diego's upcoming bicentennial.

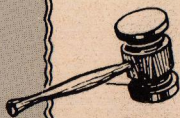

Bishop Francis Furey of the Archdiocese of San Diego delivered an invocation relating to events in both the Old and New Testaments in which money played a part.

Banquet master of ceremonies was none other than the very capable Ralph A. "Curly" Mitchell. He presented a "topless" show quite different from the one experienced in Miami. Banquet arrangements were under the direction of Paul Hamm and between the pageantry and inimitable humor of Ralph Mitchell, the evening will long be remembered as a fitting close to another ANA year.

SATURDAY — Al Baber, general chairman, receives the Good Fellowship Award for outstanding service and the advancement of good fellowship, from Adna Wilde, ANA executive director.

The San Diego convention of the ANA still comes to mind as an outstanding and memorable numismatic milestone to be remembered for years to come. It was a most delightful climate to be in, especially for those of us from the East where we have had an unusually hot summer. Again, let me extend my sincere thanks to all who helped make this convention possible.

There have been several questions presented to me relative to who will receive the association's 25-year silver and 50-year gold membership medals. The ANA board ruled in San Diego that we continue the past practice of giving 25-year medals to anyone who has paid his dues for 25 continuous years. Back payment of lapsed years qualifies a member for the 25-year silver medal, and upon such payment, available back issues of *The Numismatist* may be sent.

The board also ruled that the 50-year membership medal be continued for any person who joined the ANA 50 years before that date. An amendment was added to the effect that from now on all 50-year membership awards must be on a continuous membership basis in the association unless voted upon by the board of governors.

Speaking of medals brings to mind an interesting meeting of the Philadelphia Coin Club held September 17, to which many distinguished visitors to our City of Brotherly Love were invited, when the club presented a past president's silver medal to each of its past presidents. These medals are available from our headquarters in Colorado Springs in both silver and bronze for use of ANA member clubs and associations for presentation to their past presidents.

The board also approved, at its San Diego meeting, the awarding of \$1000.00 from the association's Reward Fund to B. F. Gould of Sarasota, Florida, for his help in the apprehension and conviction of the thieves who robbed Dr. E. R. Anderson of Chattanooga, Tennessee. I am mentioning this to indicate to you that the Robberies and Thefts Committee, under the chairmanship of Grover Criswell, is concerned about all the reported robberies and is endeavoring to offer assistance wherever possible.

It was the unique privilege of some of us to attend the special ceremonies for the dedication of the cornerstone laying at the new U. S. Mint in Philadelphia, September 18. We have every hope that the new facility will be in operation and open for visitors in time for the association's Philadelphia convention to be held August 12-16 at the Sheraton Hotel.

The drive for new and qualified members for our association will continue and should be carried on as long as we are in existence. Ask your friends, acquaintances and neighbors who have an interest in our hobby to join us. We now present each new member with the booklet, *An Introduction to Coin Collecting* and also a copy of the ANA's numismatic dictionary.

CAMPAIGN TOKENS

NUMISMATICALLY, the political campaign of 1968 is meeting with a similar expression heard from a wide percentage of the general public — there's so little to offer. Granted, there are a few pieces promoting the candidacy of third party candidate, George Wallace, but these were produced strictly for sale to collectors rather than for the promotion of the candidate himself. As for the two major candidates, other than the usual campaign jewelry, little has been produced.

Not so one hundred years ago, the campaign of 1868 produced many items of interest for the collector and Melvin Fuld has been asked to present a representative selection here on the Token Collectors' Page.

In 1868, it was the Republican convention that was held in Chicago and General Ulysses S. Grant, of Illinois, was nominated on the first ballot receiving the full vote of the 650 delegates unanimously. For vice president five ballots had to be taken before Schuyler Colfax was nominated.

On the Democratic side, we find that convention held in Tammany Hall in New York and that after twenty-one unsuccessful ballots, a stampede began on the twenty-second for Horatio Seymour, the chairman of the convention. After the ballot was announced, it was found to be unanimous. Francis P. Blair, Jr., of Missouri, was nominated unanimously on the first vice presidential ballot.

By admission of Nebraska, the whole number of states that year was thirty-seven, but Mississippi, Texas and Virginia were denied voting privileges by an act of Congress. The Electoral result for 1868 was 214 to 80 votes, with General Grant the winner. Unlike 1968, this campaign was one that saw little or no third party activities. — Ed.

"The will of the people is the law of the land," may become the watch word and theme of the 1968 campaign year as it was in 1868. Many of the problems which existed then exist today.

It is believed this piece was struck by George Lovett. On the rubber piece the bust and inscription are in light color against a dark background.

A campaign piece was made for Schuyler Colfax, DeWitt SC-1868-1. Obverse inscription, SCHUYLER COLFAX, enclosing bust of Colfax to left. Reverse inscription, LOYALTY SHALL / GOVERN / WHAT / LOYALTY / HAS / PRESERVED. Quarter foil ornament between first and second lines. White metal, 32mm.

Obverse: Small jugated busts of Grant and Colfax to left on a finely-milled field. Hole at top.

Reverse: In four lines, GRANT / & / COLFAX / *.

Metal: black rubber. Size: 20(31.-

6mm). Border: no. 1; edge, no. 1. Issued: 1868. Rarity: 7. DeWitt USG-1868-19.

There is a companion piece to this specimen of Seymour and Blair — DeWitt HS-1868-6.

Obverse: Military bust of Grant to left. Below, KEY, F. Epaulet has four stars.

Reverse: Within an olive wreath, in five lines, FOR / PRESIDENT / GENERAL / U. S. GRANT / 1868.

Metals: brass, copper, silver and white metal. Size: 11.5(18mm). Issued: 1868. Rarity: silver 8, other metals 7.

William H. Key, the engraver, reduced DeWitt USG-1868-27 for the obverse of this piece. The obverse has been muled with, STONER & SHROYER / DRY GOODS / ADAMSVILLE / OHIO.

Hettrich & Guttag 6420 copper, 6421 brass, Fuld, Ohio 5A.

The U. S. Mint made a number of medalets of this size in honor of Grant's appointments as lieutenant general and General of the Armies. Medal and token manufacturers were familiar with U. S. Grant because they probably made pieces concerning the events of his military career. This, no doubt, is why we have better than 100 pieces for the twenty-first election as manufacturers used their military dies as well as making new ones.

We know Scoville Manufacturing Co. made a number of Grant pieces as did E. Siegel, William F. Key, George Lovett, P. H. Jacobus, J. A. Bolen, and Hennig & Eyman. Civil War collectors will recognize these die makers.

Obverse: Bust of Grant in uniform facing left; beneath the bust, W. H. K.; legend, LIEUT. GEN. U. S. GRANT.

Reverse: Head of Washington facing right, emanating from clouds dotted with stars, at each side two American flags, and above the head, diverging rays; legend, THE UNION MUST AND SHALL BE PRESERVED.

Metals: copper, brass and white metal. Size: 17.5(27.7mm). Border: no. 1; edge, no. 1. Issued: 1868. Rarity: 8. Baker 249, DeWitt USG-1868-25.

Obverse: Same as above.

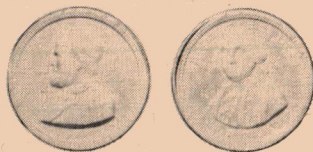

Reverse: Head of Washington facing right, resting on clouds dotted with stars, at each side two American flags, and above the head, diverging rays; legend, THE UNION MUST AND SHALL BE PRESERVED.

Metals: copper, bronze, silver and silver and tin. Size: 17.5(27.7mm). Border: no. 1; edge, no. 1. Issued: 1868. Rarity: 8. Baker 250, DeWitt USG-1868-26.

The dies of these two pieces were cut by William H. Key of Philadelphia. The pieces with Washington on the obverse are in the "Presidents of the United States" series. The Washington side of B249 is the same obverse used in Baker 235; a Lincoln piece, DeWitt AL-1864-21, a political

piece, and McClellan piece DeWitt MCG-1864-22 both being 1864.

The Baker 250 has the same Grant obverse as B249 and the Washington side used Lincoln, DeWitt AL-1864-27, King 94.

Obverse: Bust of Grant in uniform facing to left; beneath the bust, KEY F.

Reverse: Bust of Washington in civil dress, three-quarter face to left; legend, BORN FEB. 22 1732 DIED DEC. 14 1799.

Metal: copper, brass and tin. Size: 11.625(18.4mm). Border: no. 5; edge, no. 1. Issued: 1862-64. Rarity: 9. Baker 254, Fuld 116/144.

The obverse of F144 is the only obverse with Grant and the only one, F144/282 is listed. The obverse was used on DeWitt USG-1868-39 as shown in this series.

It is interesting to note that DeWitt mentions a mule with this obverse and does not mention the mule with Washington. The piece was done by Key of Philadelphia.

Seymour and Blair

Obverse: Jugated busts to the right of Seymour and Blair encircled by thirteen stars.

Reverse: In four lines, SEYMOUR / & / BLAIR / 1868.

Metal: hard rubber, black. Size: 20-

(31.5mm). Border: no. 1; edge, no. 1. Issued: 1868. Rarity: 6. DeWitt HS-1868-6.

This piece is a companion piece to DeWitt USG-1868-19. Grant-Colfax, and no doubt made by the same manufacturer.

HS-1868-38 is a clothing button of Seymour and Blair and manufactured by Novelty Rubber Co. so it can be said the Seymour-Blair and Grant-Colfax pieces were made by Novelty Rubber Co. from material patented by Goodyear in 1851.

Collectors who can supply additional information on any of the tokens, published or unpublished, are asked to write the author, Melvin Fuld, 6701 Park Heights Ave., Apt. 1D, Baltimore, Maryland 21215.

Now's the Time to Plan for 1969

A replica of a Colonial note serves as the invitation for the 1969 ANA convention. The unusual card is a copy of a Pennsylvania note of 1759 printed by Benjamin Franklin and David Hall. The reverse bears the convention dates and site.

Plans are well under way for the American Numismatic Association's 78th anniversary convention to be held in Philadelphia, August 12 through 16. Convention headquarters will be the Sheraton Hotel, 17th and John F. Kennedy Blvd. It will be the first ANA conclave to be held in the City of Brotherly Love since 1957.

General chairmanship will be under the capable direction of Thomas E. Werner of nearby West Chester. He reports that most committee chairmen have been chosen and that early indications are that it will be the most exciting convention to date.

Host for 1969 will be the Philadelphia Coin Club, one of the country's oldest, but all Philadelphia area clubs will be cooperating. It is not too early to start making plans for next year. Inquiries should be addressed to Thomas E. Werner, 505 N. Walnut St., West Chester, Pa. 19380.

Notice to All ANA Member Dealers

All ANA dealers desiring space at the 1969 ANA convention to be held at the Philadelphia-Sheraton, Philadelphia, Pa., August 12-16, 1969, kindly make requests for bourse application forms to: ANA Bourse Committee, P. O. Box 2366, Colorado Springs, Col. 80901.

(Deadline for receipt of request is December 10, 1968.)

A beaming Admiral Oscar H. Dodson, left, receives the ANA's highest, the Farran Zerbe Award, from Richard S. Yeoman, chairman of the selection committee.

Admiral Dodson Named to Receive Farran Zerbe Award, ANA's Top

The highest honor that the American Numismatic Association can bestow, the coveted Farran Zerbe Award was presented to Rear Admiral O. H. Dodson, USN (Ret.) at the annual banquet in San Diego. The award is named for the second editor of *The Numismatist* and was established in 1951.

The citation accompanying the award plaque read like something from "This Is Your Life," a life devoted not only to the service of his country, but one with equal dedication to the advancement of numismatics.

Presentation was made by Richard S. Yeoman, who received the cherished award himself in 1956. The citation read, "By the authority of the Board of Governors of the American Numismatic Association, I take great pleasure in informing you that you have been awarded the Farran Zerbe Award for distinguished service to the Association.

"Your contributions toward the advancement of numismatics cannot be measured in a single citation. For

over a period of eleven years, you served in an official capacity with our Association—the last four such years as President. During your tenure of office, you served on the Hobbies Committee of the People to People Program, and under the auspices of the State Department of the United States, you made numismatic visitations to Denmark, Poland, Russia, Austria and Greece. It was during your regime that the ANA reached its all-time peak in total membership and gained the momentum that has kept it on its present path of progress.

"At the beginning of this decade you were active in establishing the Money Museum of the National Bank of Detroit and you were its first Curator until you retired in 1965. During 1966 you made a tour around the world gathering material for numismatic lectures and articles, some of which have appeared in our official publication, *The Numismatist*. You have represented our Association on countless occasions, one of

which was in the White House in Washington.

"Your numismatic travels have taken you through some sixty-five countries and it has been estimated that you have given at least 400 lectures on the subject dear to all of us. In addition, you have authored more than one-half hundred articles with more in preparation. You are one of the few members of the American Numismatic Association who is listed in "Who's Who in America" and "Who's Who in Education."

"Since your retirement as an ANA officer in 1961, you have served on or headed various committees involving Association problems and projects. With the assignment that was routine, exacting, tedious, provoca-

tive or controversial, your answer to our many requests for help has been the old Navy slogan, "Can Do." Joining our Association in 1933, becoming a Life member in 1950, your progress and contributions to the Association can be traced through the awards of the Medal of Merit in 1953, the 25-Year Continuous Membership Medal award in 1958, and the Presidential Medal in 1961. Now, the highest honor the American Numismatic Association can bestow, the Farran Zerbe Award, is being awarded to you, Admiral O. H. Dodson, for serving our Association with the same conscientious devotion rendered our country during times of war and peace," signed, Arthur Sipe, president.

Finally!

Terms Dictionary Available

Every numismatist, from amateur to professional, will welcome the latest ANA publication, *The Dictionary of Numismatic Terms*. One of the most valuable assets to any coin collector, this new dictionary has been compiled by a staff of 22 experts and contains over 140 useful numismatic terms.

Especially useful to the new collector, the 12-page soft cover booklet was developed by the ANA Numismatic Terms Standardization Committee to define numismatic terminology so all collectors will be able to understand it. This new guide for the numismatic fraternity has been released after numerous meetings of the committee which was appointed in the Spring of 1966 by President Matt Rothert.

Definitions finally were reached on three basic numismatic terms: coin, token and medal. Definitions of

related words in these three groups then were defined, and the result is this compact dictionary which will benefit the hobby as a whole and protect the individual collector.

It may be ordered for 50 cents postpaid from the ANA Library, P.O. Box 2366, Colorado Springs, Colo. 80901. From this date it also will be included in the new member packet collectors receive upon joining the association.

ANA members of the committee appointed in 1966 and again in 1967 to complete the dictionary were: Arthur Sipe, ANA president and chairman of the 1966 committee; Mrs. Virginia Culver, ANA governor and chairman of the 1967 committee; Harold Bavard, Emile Bourgey, F. X. Calico, Dr. V. Clain-Stefanelli, John Ford, Jr., Lee F. Hewitt, S. W. Freeman, Henry Grunthal, Abe Kosoff, Chester Krause, William T. Louth, Eric P. Newman, John Jay Pittman, Matt Rothert, Russell Rulau, Mrs. Margo Russell, Joseph Segel, R. S. Yeoman, Leo Young and Randolph Zander.

FEATURING FAKES

VIRGIL HANCOCK, ANA 43616

© 1968 by Virgil Hancock

Man! We're in real trouble!

Above is shown the world's most beautiful job of casting a counterfeit 1955 double-hubbed-die USA one cent piece.

And, also above, you see an equally beautiful job of casting a counterfeit 1909-S "VDB" cent.

These two pieces, which have been landing in Texas this year, show no trace at all of any cast texture, no "symptoms" of casting anywhere on the coin, under the 30-X stereo 'scope. The fields are BU. Yet they still looked somehow suspicious to me . . . more of a hunch, though, than any visible proof.

John Ford, Jr., of New Netherlands Coin Company, showed me at San Diego's ANA how to identify these cast counterfeits, which John explained are manufactured in Milan, Italy, with a new, very high pressure casting process.

With such a process, it isn't going to be easy to detect a cast counterfeit, even with the 30-X stereo 'scope which heretofore has been generally adequate.

All I can say about those two coins is that you should be very wary of them.

I'm not going to disclose the tell-tale points by which those counterfeits can be detected. I've learned the hard way that, when a counterfeiter's error is pointed out to him, he promptly improves his product to remove the "finger-print" which has exposed his counterfeit . . . and today's counterfeits are hard enough to spot now!

We desperately need an authenticating service.

There must be some reason . . . but I can't understand what it is . . . why the 1,000 ANA coin clubs don't shower down with substantial donations to get the American Numismatic Authentication Trust (ANAT) into operation!

To date there have been only some ten clubs . . . 10 out of 1,000 . . . which have made contributions.

Will the secretaries of the other 990 clubs please write to one of us ANAT trustees, and tip us off as to why those 990 clubs haven't lent a hand?

If one or more points seems to be bothering those 990 clubs, we three ANAT trustees need to hear it. So, drop a line to John Pittman, 4 Acton Street, Rochester, N. Y. 14615; Abe Kosoff, Box 456, Encino, Calif. 91317; or to me, Box 936, Bellaire, Texas 77401. Tell us what's bothering you, puh-leeze!

If there was an authoritative authentication service in conjunction with either the Smithsonian Institution or the American Numismatic Society, then you could send your coin there and learn if it be genuine, or fake. Or, better yet, you'd ask the seller to furnish you the coin's authentication certificate. He'd add to the selling price of the coin the very modest certification fee . . . and it'd be worth it!

Editor's Note: The first four parts of Mexican Patriots and Their Part in Numismatics by Dr. A. F. Pradeau has been reprinted from *The Numismatist* and the 32-page paperback is offered to collectors for \$1.00 postpaid. Readers may order direct from the ANA Library, P. O. Box 2366, Colorado Springs, Colorado 80901.

Mexican Patriots and Their Part in Numismatics

PART VI

by Dr. A. F. Pradeau
ANA 3787

During the early years of the War for Independence, a number of counterstamps made their appearance, most of which were authorized by insurgent commanders without the formality of a written notice, therefore causing contemporary confusion and abuses. Thus far few revalidations have been authoritatively classified by the lack of documentary evidence; the increased interest that the Mexican series have received has brought about further investigations, and it is hoped that in time, the immense amount of material held in the National Archives in Mexico City, will supply the required documents; for free translation of an important one is here given:

"Doctor Jose Maria Cos, Vicar General, Marshall of the American Armies¹, Commander in Chief of

the Department of the North², and member of the Supreme National Council," desirous of clarifying the extant uncertainty, issued at La Venta (Jalisco), on March 16, 1813, the following proclamation:

1. All specie issued by Insurgent commanders must be accepted by all.
2. The imperfect Insurgent coins of Zacatecas, Sombrerete, Durango and Guanajuato, bearing the counterstamp ENSAIE³, that of an EAGLE⁴, or the initials of the Captain General Jose Maria Liceaga⁵, must be accepted by all merchants and tradesmen.
3. Anyone not complying with the dictates of this disposition shall be severely punished.
4. Individuals attempting to falsify, imitate or tamper said marks or stamps will be dealt with and punished as counterfeiters.
5. The assaying and counterstamping of doubtful coins shall be effected at no cost to their possessors and specimens not permitted to circulate in the territory of our domain, returned to their owners. — Jose Maria Cos.

J.M.L.

A mint was established on the Island of Yuriria by Don Jose Maria Liceaga, who as commander of the garrison, fortified and defended this island from September 9, to October 31, 1812, withstanding during this short period nineteen attacks made by the Royalist forces. This island is now known as Isla Liceaga in memory of its defender.

Although historical records state that a mint was established on the island, it is the belief of the author that General Liceaga and his men did not have time to mint any coins and confined their activities to counterstamping the Spanish-Colonial coins in their possession by means of a circular die which had in the center

of the field the initials of the commander J.M.L. Immediately under, there are one, two, or three letters. On the specimens studied the following were found: V., Ds., S.M., S.Y., S.L., Ve., A.P., also crudely inscribed Sca. and s.r.a. Below, are two olive twigs. A banner displaying a cross appears on the upper portion, the staff of which diagonally bisects the field. On some pieces this emblem is quite prominent.

As to the probable meaning of the second row of initials one can only surmise that they were marks of identification or the initials of the die makers. Historical records were checked as to the possibility that

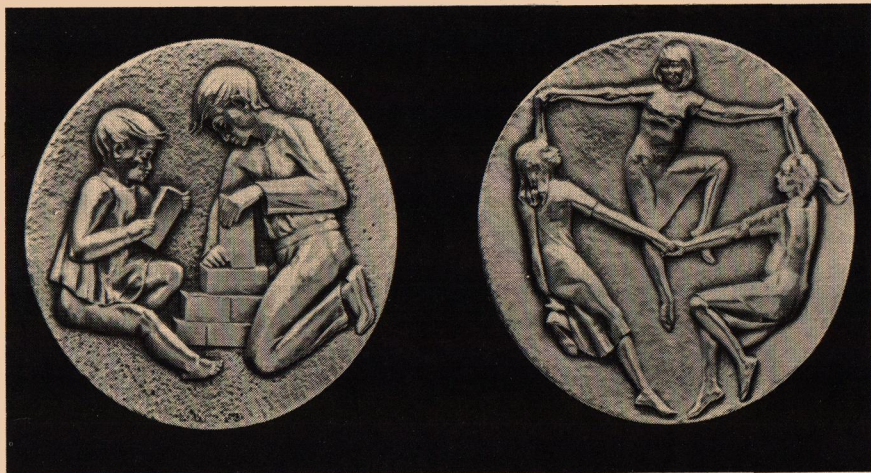

they represented the names of towns occupied by Liceaga. Not having been successful in this, the names of the sub-commanders operating with Liceaga were next investigated with equally negative results. S.M. are the initials of the inspector Dr. Jose San Martin.

These counterstamps are found on eight-reales, two-reales and a quarter section of an eight-reales, giving the piece the value of two-reales. This last specimen is most interesting as it is the only example of a larger coin cut in sections to make a fraction found in Mexican numismatic history, a common expedient resorted to in the West Indies.

NOTES:

1. The insurgents always called themselves *Americans*, the antithesis of *Europeans*.
2. The Department of the North, roughly north of the 20th parallel, to distinguish from the Army of the South.
3. At present ENSAYE; indicative that the piece bearing it had been tested as to fineness. See reproduction No. 1.
4. Probably intended as represented in figure 2, with or without the word NORTE as shown in illustration number 3, or perhaps that shown in reproductions numbers 4 and 5.
5. J.M.L. as described; illustrations 6 to 10.

Society of Medalists Features Hammered Metal

An unusual technique to model medals — hammered metal — was used to prepare the models of the latest issue of the Society of Medalists. The medal, number 77 in a continuing series of fine art medals issued by the society, was designed by sculptor Nina Winkel who employed a technique, unique in American medals, of hammering a design in bits of copper and mounting the metal parts on a wax base to form the completed bas-relief design. Theme of the medal — Children, hope of the world — is developed with three dancing girls on the obverse and two boys with construction blocks on the reverse. The nearly 3-inch medal was struck by Medallic Art Company for the society.

Never too young to be interested in coin collecting! Young Andy Weiss, 8, Gardena, California, carefully studies an exhibit of buffalo nickels elaborately presented under a bubble canopy.

Billion Dollar Display Featured 134 Exhibits

If one was to pick a predominant feature of the ANA's 77th anniversary convention in San Diego, it would have to be the fabulous displays that were presented under the direction of Mrs. Sylvia Haffner, exhibit chairman. She announced that overall the convention attracted 134 separate exhibits, 104 in competition and 30 invitational exhibits which did not compete for awards.

Judging was under the direction of Art Lovi, head exhibit judge, and the official results are as follows:

World Almanac Centennial

To celebrate its first century of achievement, the World Almanac commissioned sculptor Ralph J. Menconi to design and execute a commemorative medal. A limited run of 500 serially numbered sterling silver medals were struck from dies prepared by Medallic Art Company of New York. The medal measures $1\frac{1}{2}$ " in diameter and weighs $1\frac{1}{4}$ ounces. The artist's overall theme symbolizes knowledge from the ancients, continuing and expanding in the present and flowing on into the future through means of the World Almanac. Further information on the piece can be obtained through the publishers of the World Almanac, Newspaper Enterprise Association, 1200 West Third St., Cleveland, O. 44113.

Ancients Go Modern

No, it's not that the hippee youth of today digs numismatics, although the hobby does find a few within the ranks of its enthusiasts, it's just that a current vogue is the wearing of medallions as necklaces. The girls? — Heck no, the boys!

In tune with the current fad, an American medal firm, better noted for other series of issues, reached back into ancient numismatic history recently and produced a modern day fashion accessory. Being made available to them and the jet set are replicas of ancient coins of both Syracuse and Athens.

The Syracuse medallion is a copy of a famous silver dekadrachm minted originally about 400 B.C. In its original form it is regarded as the world's most beautiful coin. The portrait of the coin has been reproduced by sculptor Ralph J. Menconi of Pleasantville, N.Y. It is of either Arethusa or Persephone, depending upon which reference you check. Historians are at odds on this point.

Arethusa, mythology recounts, was a nymph metamorphosed into Spring on the island of Ortyzia to save her from the pursuing river god, Alpheus. Persephone, legend sets forth, was the daughter of Zeus and Demeter, and was kidnapped by Pluto to be his wife and queen of the lower

world. She was granted reprieve once a year, the story continues, thus becoming the personification of spring. The period of the coin was set by the series of four dolphins encircling the portrait, identified with Greek coins of this area.

The medallion of Athens depicts an owl, symbol of the city-state, as does the original minted about 450 B.C. Athens is regarded by historians as the seat of learning of its time. The Greek goddess Athena embodied wisdom, the arts, industries, and prudent warfare. It follows then that the creature which epitomizes knowledge and keen judgment should be selected as the Greek symbol, much as the eagle is the symbol of the United States. The medallion, like that copy of the coin of Syracuse, was designed by Ralph Menconi for Presidential Arts Company and struck by Medallic Art Company of New York. Both medallions, 46mm in diameter, are being made available either silver-plated or gold-plated. Current retail prices are \$12.95 and

\$14.95 respectively and are boxed with a long chain for necklaces and are available through many coin dealers throughout the country.

So don't be surprised if a long

haired or bearded one walks into your favorite coin shop. It may not be who you think it is at first glance, but just one of the modern set making the scene.

New and Recent Issues

by Ernst Kraus, LM 129

It is the important duty of *The Numismatist* to record and illustrate new coins. To accomplish this, members in the United States and abroad are invited to submit new issues to Ernst Kraus, Room 939 (include room number in address), 393 Seventh Ave., New York, N. Y. 10001. Coins will be photographed and returned as soon as possible, and a credit line will be given to anyone assisting.

Colombia

An imitation of Columbus' first act when he landed in the new world, Pope Paul VI knelt and kissed the ground on landing at Bogota, Colombia, last August. The occasion of his visit was to open the 39th International Eucharistic Congress and, in doing so, became the first pontiff to set foot in South America, the world's only predominantly Catholic continent. His duplication of Columbus' first act was doubly significant since Colombia is the only land named after the discoverer of the new world, although this particular country was not discovered by Columbus but by Alonso de Ojeda, a Spaniard who accompanied Columbus on his second journey.

The Eucharistic Congress was conceived in the late 19th century by a devout Frenchwoman, Marie Marthe Tamisier. It is a liturgical event that reaffirms the worldly glories of the faith and, in particular, venerates the Eucharist, the ritual in which, according to traditional Catholic doctrine, bread and wine are transubstantiated into the body and blood of Christ.

To mark the event of the Pope's visit and the advent of the Eucharistic Congress in predominantly Catholic Colombia, the government struck a crown sized 5 pesos commemorative. The coins are being made at the mint in Bogota and an issue of 660,000 has been reported. Certainly not enough to satisfy the demand ex-

pected from both collectors and religious of the world.

5 pesos, 1968. Copper-nickel. Obverse: the emblem of the Eucharistic Congress, a stylized design consisting of four fish representing the four corners of the earth and in the form of a cross to symbolize the Eucharist, all within a circle to signify the universality of the congress; legend around, XXXIX CONGRESO EUCARISTICO INTERNACIONAL BOGOTA. Reverse: value 5 / PESOS within a wreath of grain; date below, 1968; legend around upper half, REPUBLICA DE COLOMBIA. Reeded edge, 35mm diameter, 14.97 grams weight.

Germany (East)

When East Germany attained recognition as a sovereign republic in 1954, the legends of its coins were

changed to read, DEUTSCHE DEMOKRATISCHE REPUBLIK (German Democratic Republic). By oversight or intent all the minor coin designs were changed to reflect this new sovereignty and to show the new coat-of-arms of East Germany, all save the five pfennig last struck in 1953. This has now been corrected.

5 pfennig, 1968. Aluminum. Obverse: arms in center; legend around, DEUTSCHE DEMOKRATISCHE REPUBLIK. Reverse: value 5 between two leaves, PFENNIG and date below, A at top for Berlin Mint. Plain edge, 19mm diameter.

Hungary

With the intention of extending their sphere of power and influence, the Turks invaded Central Europe in the 16th century. Hungary and Croatia bore the brunt of the invasion. It was at the fortress Szigetvar in 1566 where Zrinyi Miklos, commanding the defenders, held back the overwhelming Turkish forces led by Sultan Suleymann II. Forestalling the enemy's plan for a second siege of the Imperial City of Vienna, he removed the Turk menace from the whole of Europe and with a small band of survivors Miklos broke out of the wrecked, burning fortress and lost his life in defense of his country.

In commemoration of the 400th anniversary of the death of Zrinyi Miklos (1508-1566), the Hungarian Mint has issued a limited series of coins in gold and silver. The coins are considered legal tender and sold by banks and other financial institutions in the country.

25 forint, 1966. Silver (.640 fine). Obverse: portrait of Zrinyi reproduced from an etching by the Nurem-

berg artist Mathias Zundt (1498-1572); his name ZRINYI MIKLOS above; value and mintmark BP for Budapest Mint below; and dates 1508-1566 divided to each side. Reverse: copied from the painting by the Hungarian painter Bertalan Szekely (1835-1910) representing the scene of Zrinyi's heroic sortie from the burning fortress Szigetvar, as well as the hereditary coat of arms of Zrinyi; legend around, MAGYAR NEPKOZTARSASAG (Hungarian People's Republic). Reeded edge, 32mm diameter, 12 grams weight.

50 forint, 1966. Silver (.640 fine). Similar to above except for size, weight and value. Reeded edge, 36mm diameter, 20 grams, weight.

These same designs were also issued in 100, 500, and 1000 forint denominations in .900 fine gold, but are not legally importable into the U. S. Obverse design was by Ivan Istvan, chief medallic sculptor, Hungarian State Mint; the reverse by Varga Lorand, assistant manager of the Coin Design Department, Hungarian State Mint.

Iran

Although citizens of Iran may be called Iranian or Persian, the latter falling into disuse in the 1920s, the language is always called Persian. Being a member of the Great Indo-European family of languages, it is related to the major tongues of Europe. The alphabet, however, is Arabic and therefore Semitic. The Arabic characters were introduced in the 7th century, at the time of the Arab conquest. In the course of time the Arabic letters have become an important part of Persian literary and artistic tradition and thus their reason for being the sole legends on the national currency.

5 rials, 1968. Copper-nickel. Obverse: arms in center, crown above, value below, and all within wreath. Reverse: value in center; legend above, MOHAMMED RIZA PAHLEVI, SHAH OF IRAN; crown above, all within wreath; solar date at bottom, 1347 AH (1968 AD). Reeded edge, 25mm diameter, 4.5 grams weight.

The above is similar to the earlier issue dated 1338 AH (1959 AD) that was somewhat larger, thicker and consequently heavier than this new issue.

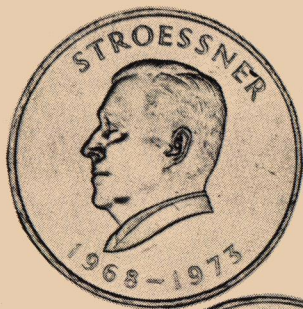

Paraguay

From 1617 to 1811, Paraguay and Argentina were separate colonies of Spain governed first by the viceroyalty of Peru and later by the viceroyalty of La Plata, established in Buenos Aires in 1776. In 1810, the Argentine people demanding self-government forced the viceroy to resign and at the same time invited the Paraguayans to join their movement. Authorities in Paraguay voted to retain their own identity and in 1811 carried out a bloodless coup shaking Spain's tenuous hold, but not the covetous intentions of her neighboring states.

In 1864, Paraguay entered the War of the Triple Alliance against Argentina, Brazil and Uruguay. This incredibly valiant, though desperate, struggle lasted five years and ended in disaster for Paraguay, ruining her finances and agriculture, wiping out about two-thirds of her able bodied population and costing her large sections of her territory. It was not until 1878 that the final arguments between Argentina and Paraguay were settled with President Rutherford Hayes of the United States acting as arbitrator.

Political conditions have never been too stable and in 1954, after another period of unrest and a succession of presidents, the army, led by General Alfredo Stroessner, took over the government. Stroessner was elected president the following July and has been reelected to subsequent terms, thus the reason for the 1968-1973 date on the obverse of a new commemorative issue marking the centennial of the War of the Triple Alliance.

300 guaranies, 1968. Silver. Obverse: portrait of the president to left; STROESSNER above; dates of his latest term below, 1968-1973. Reverse: arms within center circle; value above, 300 GUARANIES; legend below, REPUBLICA DEL PARAGUAY. Edge lettered,

CENTENARIO DE LA E POPEYA (Centennial of the War). 38.5mm diameter, 2.8mm thick, 26.9 grams weight.

South Africa

The first coins bearing the head of C. R. Swart have been placed in circulation in South Africa. They are the 1¢ and 2¢ pieces and all the 1968 coins of the republic, with the exception of the 1 rand, will bear the head of Mr. Swart. Charles Robberts Swart was the first state president of the Republic of South Africa.

He was born on the farm Morgenzon, in the district of Winburg, Orange Free State, in 1894. He studied law at the Grey University College, Bloemfontein and was admitted in 1919 to the bar as advocate of the Orange Free State Supreme Court. He maintained his legal practice until 1948 when he was appointed as Minister of Justice of the old Union of South Africa.

On January 12, 1960, Advocate Swart was appointed governor general of the Union of South Africa and when it became a republic, he was sworn in as state president of the Republic of South Africa on May

31, 1961. Swart served one term, and upon its expiration on May 31, 1967, he and his wife retired on their farm, De Aap, in the district of Brandfort in the Orange Free State. An issue of two special commemorative postage stamps coincides with this new coinage issue.

1 cent, 1968. Bronze. Obverse: portrait of the first state president, designer's initials T.S. below, legend SOUTH AFRICA 1968 at left. Reverse: two sparrows on a tree branch, initials T.S. below, value above. Reeded edge, 19mm diameter.

1 cent, 1968. Bronze. Similar to above but legend on obverse in Afrikaans, SUID AFRIKA 1968.

2 cents, 1968. Bronze. Obverse: similar to above, English legend at left SOUTH AFRICA 1968. Reverse: black wildebeest, designer's initials J.V.Z. at lower right, value below. Reeded edge, 22mm diameter.

2 cents, 1968. Bronze. Similar to above, but legend on obverse in Afrikaans, SUID AFRIKA 1968.

The reverse designs of the above coins are identical to the previously issued types of 1965 to 1967. Only the obverses have been changed. All are struck at the Pretoria Mint.

Sovereign Military Order of Malta

The Food and Agriculture Organization of the United Nations, FAO, is promoting the design and use of coins that would graphically or symbolically illustrate improvements in

agriculture and food management and production. The coins will bear such inscriptions as, "Produce more food," or "Food for the World," or other similar text. Thus far 24 nations are participating, while another 33 are known to have the plan under consideration.

One of the first FAO-inspired pieces to be minted was the bronze 2 tari piece struck by the Order of Malta (*The Numismatist*, Sept. 1968, p. 1157). One of the latests has also been issued by the order. It is a 3 scudi piece.

This and the 2 tari can be ordered by coin collectors at \$3(US) from the Treasury of the Grand Master, Palazzo Malta, Via Condotti 68, 00187 Roma, Italy. The price includes surface postage.

The year 1968 marks the seventh consecutive year in which the Order of Malta has resumed issuing "coins," following some 500 years of coin-issuing history which ended in 1798 with the French occupation of the island of Malta. The Order is now established with "extra-territorial" rights in Rome, even with some accredited ambassadors. The modern pieces do not circulate — they are all issued in proof form, and the proceeds are directed to the order's medical and social work, including distribution of food relief, in many countries of the world.

3 scudi, 1968. Silver. Obverse: St. John the Baptist, patron of the order, preaching to the crowds and holding the standard of the order in his left hand, a lamb at his feet; Latin legend divided, QUI HABET DUAS TUNICAS DET NON HABENTI ET QUI HABET ESCAS SIMILITER FACIAT. LUCA III-11 (The man with two coats must share with him who has none, and anyone who has food must do the same. Luke 3 11.); and in Italian around the edge, F.A.O. ANNO 1968 GUERRA ALLA FAME (F.A.O. Year 1968, War on Hunger); mint-mark of the order, a small Maltese cross with the letters SMOM; PROVA below and value at bottom, 3 SCUDI. Reverse: Crowned arms in center; date below; legend around, F. ANGELUS DE MOJANA M.M.H.H. (Grand Master of the Order). Reeded edge, diameter 33mm.

Tonga

The following issues were reported in the September issue of *The Numismatist*, page 1158-59, but illustrations were not available at the time.

1 seniti, 1968. Bronze. Obverse: head of king to right; date below; his name around upper part, TAUFA'AHAU TUPOU IV (this design is identical on all obverses of the values described below). Reverse: a turtle crawling to left, value below. Plain edge, 17½mm.

2 seniti, 1968. Bronze. Similar to above except for size and value. Plain edge, 21mm.

5 seniti, 1968. Cupro-nickel. Reverse: numeral 5 for value within the lead formation of the Southern Cross; fern leaves to each side; TONGA at top; SENITI at the bottom. Reeded edge, 19½mm.

10 seniti, 1968. Cupro-nickel. Similar to above except for size and value. Reeded edge, 23½mm.

20 seniti, 1968. Cupro-nickel. Reverse: crowned arms in center, value above, TONGA below. Reeded edge, 28½mm.

50 seniti, 1968. Cupro-nickel. Similar to above except for size and value. Reeded edge, 34½mm.

"Termites, 'flying ants' of the Philippines, penetrated the concrete vaults of the Treasury of the islands at Manila recently and ate 4,000,000 pesos (\$2,000,000) of paper currency, or what is said to be that much money, and the amount is to be printed in new bills and the treasury absolved from responsibility. Termites, which the Filipinos call anay, eat anything that has wood pulp in it and are sometimes the unwitting agents of fraud. When an election has been illegally won and the contents of ballots boxes are questioned, termites are often introduced into the boxes to destroy the evidence." — *The Numismatist*, February, 1930.

LATE WORLD COIN NEWS

CANADA

The Irony of It All

Where does anyone, any country turn to, when they need help? To Uncle Sam, of course. Therefore, it was not too surprising when Canadian finance officials turned to the United States Mint for help during the current coin shortage in Canada. An initial order for 75 million Canadian 10-cent pieces was placed with the Philadelphia Mint in late August. Consideration is also being given to the production of 25-cent piece for Canada.

E. J. Benson, Canadian finance minister, acknowledged the job could be done in the United States more quickly than could be done from Canadian production. The Canadian coins will be struck in pure nickel as are their counterparts, now being struck by the Royal Canadian Mint. In Canada, the nickel planchets are prepared for the mint by the Sherritt Mint, Fort Saskatchewan, Alberta, a private concern.

At the same time that the Canadian government must look to U.S. sources for help in the production of its coins, the Sherritt Mint, in turn, is striking coins for two foreign governments. Three hundred thousand Lebanese one pound pieces are being struck in pure nickel are under current production. Identity of the other country has not yet been made known, but Sherritt is not striking Canadian coins for use in its own country.

The Lebanese 1 pound pieces are equivalent to 33¢ U.S., 28mm in diameter and weigh 9.5 grams. The coins are being struck for that country's participation in the Food and Agriculture Organization of the United Nations plan for a world coin

issue to focus attention of world food problems.

The 1968 dated coin bears a Cedar of Lebanon on the obverse and a bunch of grapes, two oranges, and an apple, on the reverse. These rep-

resent Lebanon's main horticultural products. The coin issue was authorized in July 1967 by a decree which states that the coins will be legal tender for a period of three years after the date of issue, and authorizes the use of coin proceeds for one or more projects in food and agriculture.

The issue will be available to collectors, but prices have not yet been released. Further information relative to the cost to collectors can be obtained from the Banque du Liban, Rue Masraf Loubnane, Beirut, Lebanon.

ISRAEL

It's 5729 Already!

The official specimen set of the Government of Israel's 1969 coins, scheduled for issue early in December, 1968 will feature the 21st anniversary of the founding of Israel.

For the first time in the history of the issuance of Israel's specimen sets, the coins will be made available before the holiday season.

The 6-coin specimen set will include newly minted 1 lira (1 pound),

the ½ lira, 25 agorot, 10 agorot, 5 agorot and 1 agorot coins. Each bears the date 5729 in Hebrew with ancient and traditional Hebrew themes interpreted by Israeli artists for the basic coin designs.

The coins are being minted from highly polished dies to provide handsome, clearly defined reproduction with all coins in the sets protected in a special 21st anniversary commemorative die-cut presentation holder.

Joseph Milo, assistant trade commissioner of the Government of Israel announced that more than 3,000 banking offices in numerous countries around the world are accepting advance orders for these specimen sets to satisfy the demands of coin collectors and friends of Israel.

A special one week international sale will be conducted simultaneously in all banking offices for their customers and the general public in early December, 1968 as scheduled by the Israel Government Coins and Medals Corporation, the only official organization for worldwide distribu-

tion of Israel coins and state medals. The official Israel specimen set of six coins will sell through banks for \$3.50 per set which includes 50¢ per set for handling, excluding local sales tax.

Information about the Israel 1969 specimen set and other official coins and State medals may be obtained from the office of the Assistant Trade Commissioner, Government of Israel, 850 Third Avenue, New York, New York 10022.

GREAT BRITAIN

Another One-of-a-Kind

According to Lt. Col. Tim Dunn, world coin numismatist, another "one of its kind" English rarities has found its way to the United States. The coin, a heretofore unknown 1868 half crown was purchased by Dunn when he outbid a leading London dealer to obtain the prize.

The coin was found by a London housewife, Mrs. Denyse Jackson, in a tea caddy. The Royal Mint advised Mrs. Jackson by letter that they believe it is genuine and that no specimen is available in the Mint Museum for comparison. There is no record of half crowns being minted during that period, and Colonel Dunn offers the opinion that it was probably struck for use in one of the colonies. Reference books refer to an 1866 variety, but none have been discovered.

Mr. Burrows, an East London factory worker, found the 1952 specimen in pocket change earlier this year.

The rare finds by both Mrs. Jackson and Mr. Burrows over a period of just a few months, would seem to indicate the other outstanding contributions to British numismatics are in the offing. Colonel Dunn has asked that anyone having information or ideas on the background of the minting of the 1868 half crown please write him at Box 816, Elmendorf AFB, Alaska 99506.

BOOK REVIEWS

Knowledge is of two kinds: we know a subject ourselves, or we know where we can find information upon it. — Boswell's Life of Dr. Johnson.

Bill's Book On Big Bills

UNITED STATES LARGE SIZE PAPER MONEY 1861 TO 1923 by William P. Donlon. 176 pages. Illustrated. Paper cover. Krause Publications, Inc., Iola, Wis., 1968. \$3.00.

Donlon's popular and successful catalogue of small size U.S. paper money, published in 1964 and now in its fourth edition, has been joined by a larger book covering the old series large size notes. While designed to sell at a low price, it nevertheless covers all of the nine classes of old series notes, is on glossy paper to permit high-quality illustrations, and extends the copyrighted Donlon numbering system to the subject notes.

While the word "catalogue" is not in this new book's title, it is a priced catalogue with retail valuations of all notes, most of them in three conditions. But it is far more than a mere price list, for the collector and student of our first and most interesting notes for general circulation will find much historical and factual information about them. There are tables of the terms of office of note signers (the Rosecrans-Morgan combination endured only 18 days), definitions of conditions, descriptions of designs with, in many cases, identification of the engravers, and other succinct historical notes on the various classes and issues.

Probably the new book's greatest value to numismatists lies in the fact that, while a quality publication, its cost is low enough that it can be revised as necessary (annually ?) to furnish up-to-date valuations. Wisely, the first printing was quite limited so that a second printing, expected

to be out by the time this review is published, will correct the minor errors (such as the inverted cut on p. 120) which sometimes occurs in a new book. Obtain it from your coin shop or from William P. Donlon, P.O. Box 144, Utica, N.Y. 13503 — Glenn S.

Fragile Beauty

MEDAILLEN AUS PORZELLAN by Karl Scheuch. 100 pages. Illustrated. Paper cover. Printed in Germany. Distributor Bebee's, Inc., 4514 N. 30th St., Omaha, Nebr. 68111. \$6.50.

Author Scheuch, with the aid of his friend Alfred Kroner who has "many years' relations with the State Porcelain Manufactory at Meissen," has cataloged what he believes to be all of the porcelain medals and plaques from 1921 to 1966 by places of issue from Albrechts to Crossen, 203 pieces. Books to follow will list those of other places of issue.

Although the text and descriptions are in German (the preface is included in both German and English), the excellent illustrations of all medals make it possible for American collectors to identify them. There are tables from which one can determine the persons honored and other information about the medals. Biographical sketches, however, require a reading knowledge of German.

The all-important illustrations are in uniform size but the size of each piece is shown in millimeters. Wisely refraining from pricing the pieces, the author included a table that shows the different kinds of finishes and decorations in which each piece was made and the approximate number from less than 200 to more than 70,000. Thus a collector will know the relative ease, or difficulty, with

which a given piece may be found.

Other books by the same author on porcelain coins and medals, and available from Bebee's also, are *Munzen Aus Porzellan Und Ton*, and *Spenden-Medaillen Aus Porzellan Und Ton*, each priced at \$6.95.—Glenn S.

Deposit Your Token, Please!

A CATALOG OF TELEPHONE TOKENS OF THE WORLD by Paul Targonsky. 27 pages, 7 plates. Paper cover. Mimeographed. Published by author, 46 Northwood St., Meriden, Conn. 06451. \$3.00.

The collecting of the material for this catalogue first began in 1963 and the compilation was completed through the cooperation of many collectors and the financial assistance of the North Eastern Vecturist Association. The latter's assistance made possible the printing of the plates and cover. Catalogued are all the known telephone tokens of the world, 250 of the 450 known tokens have been illustrated.

A four page introductory section explains the symbols used for size, shape, edge, and composition of each piece. General valuations are also given. The remaining pages list the tokens by country with eight of the pages devoted to foreign issues.

Targonsky has made a lifetime study of communication, parking and transportation tokens. His membership in ANA dates back to 1948, over twenty years. He should be congratulated for his listing and untiring efforts and for his initiative in printing the book himself. The author notes that should this edition meet with success future editions will be printed in book form.—Jerry Remick.

Charlton's 17th

STANDARD CATALOGUE OF CANADIAN COINS, TOKENS AND PAPER MONEY by J. E. Charlton. 17th edition, 1969. 128 pages. Illustrated. Hard cover. Whitman Hobby Dept., Western Publishing Co., Racine, Wis. \$1.50.

The previous edition of this much-

used book having been sold out for some time, many collectors will be happy to see the new one which is available now. Even those who did get the 16th edition last year will want the up-to-date pricing and other additions in the new one.

In general, price changes are not numerous, being most noticeable in gold coins and in paper money of the last decade or so. The author and publisher are to be commended for lowering prices here and there, indicating an honest attempt to show current prices. There have been instances in the past where dealer-contributors to priced catalogues resisted such changes because of adverse effects lower pricing might have on their businesses. Of course, Jim Charlton's eminence as a Canadian dealer keeps him in close touch personally with market conditions.

For those not familiar with this book, it lists all coins issued by Canada, Newfoundland, New Brunswick and Nova Scotia, including pricing in the usual conditions and the official mintage figures. The types and varieties of such coins are well illustrated as are the many early tokens of the same areas. Similarly, the paper money of the Dominion, the Province and the Bank of Canada, and the Newfoundland Government notes, are illustrated and priced in four or five conditions.

The light blue cover of the new book depicts the 1968 reduced size dollar and half dollar, making it easily distinguishable from previous editions. Priced at only \$1.50, it may be purchased at most coin shops and book stores.—Glenn S.

Number Twenty-two

A GUIDE BOOK of UNITED STATES COINS by R. S. Yeoman. 22nd edition, 1969. 256 pages. Hard cover. Illustrated. Whitman Hobby Div., Western Publishing Co., Racine, Wisc. \$2.00.

"A low-priced standard reference book of United States coins and kindred issues has been a long-felt

need among American collectors... It is believed that this volume will appeal to that group." Thus spoke R. S. "Dick" Yeoman in opening the preface to the first edition of the Red Book in 1947. He planned well, for twenty-one years later the most popular of all numismatic books follows its original format and is the "low-priced standard reference book of U.S. coins."

Coins listed in the Red Book span the entire panorama of United States history from the arrival of the English at Sommer Islands in 1616 to today's clad coinage, including issues of our Colonial period, private and territorial coins of the gold rush era, commemoratives, and the entire federal regular coinage. Mintage figures are shown for all United States coins. Minting techniques, designs, coin collecting procedures and coin terms are explained. Coin grading guides are placed next to the full size illustrations of each U.S. coin type, with historical and numismatic information scattered throughout the entire volume.

The new edition, traditionally issued about July first each year, is awaited mostly for the up-to-date retail prices which are based on reports from a panel of fifty of the country's leading dealers. The trend in prices is still up although most gains are modest and some series are very little changed from a year ago. More than a few of the coins issued during the last twenty-five years have declined slightly, such as the 1939-D nickel from \$45 to \$40, the 1950-S dime from \$10 to \$8, the 1949 quarter from \$13 to \$10, and the same date half dollar from \$27 to \$22.50. Silver dollars from 1840 to 1921, with but few exceptions, advanced moderately, as did many commemoratives and most proof sets.

To say that the quality of the book itself, including binding, cover, paper stock, illustrations, etc., has not deteriorated is like saying that

the quality of sterling has not been impaired. Coin dealers, book stores and hobby shops will again sell thousands of this edition at \$2.00 each to inveterate as well as to novice collectors, and to persons having or handling coins without any numismatic interest in them. — Glenn S.

From One to the Other

CROWNS OF FRANCE — LOUIS XVI - DE GAULLE
by Norman H. Kirby. 64 pages. Illustrated. Hard cover. Hewitt Brothers, publishers. Available from the author, 416 Keller, Cape Girardeau, Mo. 63701. \$3.50.

This volume covers in detail the historical, economic and coinage background of all French crowns. The study includes French silver dollars, talers, ecus, five franc pieces and crowns and covers a period of 190 years. For the purpose of simplicity, all coins described and illustrated are referred to as crowns.

With cross references to other authors, the coins are described by weight, diameter, edge variations, mintage figures and symbols of mint engravers along with the directors. Value is determined by demand and is based on mintage figures, length of coinage, popularity of the governing rules and condition.

The author explains that the French crown, with its many varieties and dates, usually can be bought for a very nominal amount and is in plentiful supply. He adds that one of the reasons for this is that they were minted in large numbers and circulated in America alongside the Spanish pieces of eight.

The events of history are reflected in the crowns which are illustrated. In this book you will travel the highway from the haughty, pimpled, obese-faced grandeur of Louis XVI to the crag-faced pomposity of the nose of Charles, the Grand, de Gaulle.

It often has been said that every man, in reality, has two countries — his own and France. All collectors and students of French history will value this splendid volume. — NW.

LIBRARY REPORT

Random House Dictionary Added to Library

One of the most needed books for the Library of the American Numismatic Association was recently donated by Mr. and Mrs. Herbert M. Bergen. The first vice president of ANA and his wife presented an unabridged edition of Random House Dictionary of the English Language. The presentation was made at the board of governors' meeting at the 77th anniversary convention in San Diego.

From simple word pronunciation to extensive research this dictionary offers a great variety of information for the user. Along with a simple usage chart for proper pronunciation, this book contains more than 260,000 entries. Etymologies and 10,000 synonyms are listed.

Also included in this 2059 page volume are a speech section on foreign diction in French, German, Spanish and Italian; a detailed atlas section featuring geographical information of the world; a chronological list of major dates in world history with significant comments on each; a college and university directory; a list of major reference works on popular educational subjects; and a section devoted to punctuation and writing style. More than 2,000 pictures and maps are used throughout and it is compiled for easy usage.

Mr. and Mrs. Bergen's gift will find wide use in the library specially with students utilizing these facilities for term papers.

Other recent donors of equally important works include: Charles M. Johnson, governor; Lester Wright, A. F. Anderson, Frank J. Katzen, Arthur Conn, Leo A. Young, the Professional Numismatists Guild, Whitman Publishing Co., Capt. Arthur W. Tuttle, and Roberto Pesant.

It is estimated that more than \$10,000 in coins are thrown into the water for these divers to retrieve every year." — *The Numismatist*, July, 1930.

James Monroe Medal for Hall of Fame

The James Monroe medal of the Hall of Fame for Great Americans series was designed by C. Paul Jennewein, who has prepared five previous medals in this series. The medal portrays Monroe on the obverse. The reverse, with a theme of the foreign policy he made famous, displays a symbol of peace and power, an outline map of the world and the inscriptions: Monroe Doctrine, Louisiana Purchase 1803, Florida 1819, and Missouri 1820. The medal was struck in three compositions and sizes — silver 1¾", bronze 3" and bronze 1¾". They are struck by Medallic Art Company for New York University.

For the Junior

Junior's Feature In The Numismatist Cops Top Award

Donald B. Lannon's feature article appearing in the March 1968 issue of *The Numismatist* earned him the Lewis M. Reagan Memorial Award for the best article written by a junior and published in any publication. Lannon documented the history of America's most artistic and beautiful coinage — the eagle and double eagle types of 1907, designed and executed by Augustus Saint-Gaudens.

The article brought rave comments from collectors all across the U. S. including comments from Cornelius Van S. Roosevelt, grandson of President Theodore Roosevelt, whose appreciation of the genius of Saint-Gaudens resulted in the beautiful designs becoming a reality.

The Saint-Gaudens National Historic Site are now in the process of reprinting young Lannon's article, as it appeared in *The Numismatist* for distribution to visitors at the Saint-Gaudens home and studio in Cornish, New Hampshire.

Other junior winners at San Diego were Leonora Dickson of Chicago, who was named Outstanding Young Numismatist of ANA, and William S. Nawrocki, South Holland, Illinois, won the ANA Junior Literary Award for 1968. Miss Dickson's award car-

ried a paid-up membership in the Societe Commemorative de Femmes Celebres.

The Debbie Jane Gould Memorial Award, furnished by Maurice Gould, for the most outstanding numismatic manuscript in terms of research was won by J. Sherrod Taylor for an article on Georgia Gold that appeared in a recent issue of *The Whitman Numismatic Journal*.

The challenge has been issued, young numismatists, these pages are open to your articles and they should be sent to the editor, *The Numismatist*, P. O. Box 2366, Colorado Springs, Colo. 80901.

"Orville Wright will be the initial recipient of the medal to be awarded annually by Daniel Guggenheim for aeronautical achievement. The award, which will be solely for engineering and scientific achievement in the technology of air navigation rather than for great achievement in the operation of aircraft, will be made for the first time on April 30 to Mr. Wright, with a similar posthumous award for his brother, Wilbur, who, with Orville, made the first flights at Kitty Hawk, N. C., in 1903." — *The Numismatist*, March, 1930.

numismatic vignettes

● **Twoscore Years Ago**—Among items of interest recorded in *The Numismatist* of 1928 (p. 608) was a statement that "Congressman McLeod of Michigan will introduce a bill in the next Congress making it unlawful for any person to use a slug to obtain merchandise or services from any coin-operated machine or public utility, or to have in one's possession any coin the size and weight of a United States copper, nickel or silver piece." [Presumably the bill was not passed with the latter phrase in it.]

Another item (p. 716) related to the origin of the term "almighty dollar." The evidence presented in the item, credited to the *Kansas City Times*, was convincing that Washington Irving coined it for use in his "Creole Village," published in England in 1837. The *Philadelphia Public Ledger* used the term in December, 1836, but it was quoted and presumably had been noted in "Creole Village" prior to its publication in the annual *English Magnolia*. [In my collection of engravings are 13 from *The Magnolia* of 1837, a gift book of at least 352 pages. To save space, I discarded everything except the ornate covers, title page, a "List of Embellishments" and the 13 engravings. However, the title page carries this statement: "Entered, According to the Act of Congress, in the year 1836, by Bancroft & Holley, In the Clerk's Office of the Southern District of New-York." Also it shows the address of Bancroft & Holley to have been 8, Astor House, Broadway, New York. Thus there appears to have been an error in attributing the publication to England, but the "copyright" date

indicates how the Philadelphia newspaper found the term late in 1836.]

● **Webster's Seventh New Collegiate Dictionary**. The verb "strike," which we use so frequently with reference to the making of coins and medals, has over 40 definitions, and its noun form has 11 others.

● According to unofficial sources, New Zealand will strike a special dollar in 1969 to commemorate the bicentennial of Captain James Cook's first voyage to the Islands. It is to depict him in profile, the chart he made of New Zealand, and his ship the *Endeavour*.

● In his book *Leaving the Surface*, columnist Sidney Harris cites examples, some amusing, of different meanings which certain words and phrases have to persons of different countries and areas. Yet in the dictionary are many words which, even in a given locality, have meanings that are quite at variance with the ones commonly thought of. Suppose you were asked to attend a symposium this evening; wouldn't you be apt to ask "What topic is to be discussed?" No, not if you realized that you were being invited to a drinking party, which is the first definition given of the word "symposium" in the latest Webster's dictionary.

● Data compiled by the International Nickel Co. shows that 56 different countries issued pure nickel coins in 140 denominations since Switzerland struck the first such in 1881. Probably other countries and denominations (Canada's, for sure) can be added now to the tabulation dated early in 1968. — Glenn S.

Paul M. Fouts

Leonard Steyning Forrer

Jacques Schulman of Amsterdam, Netherlands, has announced with regret the sudden death on the 12th of September of his eminent colleague and lifelong friend, Lt. Col. Leonard Steyning Forrer. Col. Forrer was 73 years of age at the time of his death.

During the past thirteen years he had been associated with the Jacques Schulman firm in Holland and his numismatic knowledge and generous personality played a major part in the development and success of the company.

Funeral services and interment took place in Amsterdam on September 17, 1968. — JS.

Paul M. Fouts ANA 4792

Paul M. Fouts, a lifelong numismatist, was born in Cleveland, Ohio, in December of 1893. Word has just been received of his death, a victim of heart disease, in Seattle, Washington, last June 13, 1968.

At the age of three, his photograph was used on campaign placards for President Wm. McKinley; one of him in a military uniform, another sitting on McKinley's lap. These were distributed all over the U.S. and collectors of presidential items may have copies in their collections.

A true numismatist, Fouts often found the history behind the coin more intriguing than the mere acquisition of the coin itself. He compiled one of the greatest numismatic libraries in the West, including a complete and original set of *The Numismatist*. He pioneered in the field of illustrated coin lectures with colored

slides and was very much in demand as a speaker.

He made the first set of slides on transportation tokens and that set is now owned and circulated by the American Vecturist Association. He helped found the Seattle Coin Club and was ANA district secretary in 1936, continuing in that position for about ten years.

Fouts founded the first transportation token collectors club in the world in Seattle in 1947 and was also a charter member of the parent AVA. Surviving are two daughters and nine grandchildren. — ML.

Harold H. Norris ANA 43378

Born in Hartford, Arkansas, in 1916, Harold H. Norris died in Greenwood, Mississippi, on August 13, 1968. A longtime resident, he was the owner and operator of the Norris Bookbinding, Inc., Greenwood, where he bound Bibles for almost every country in the world.

Active with the Leflore Coin Club, Greenwood, Mississippi, he was also a former member of the board of governors of the Mississippi Numismatic Association. Norris was known throughout the southern states for his currency collection and displays that took many "best of show" awards. — RF.

Allan Sutherland ANA 4382

Allan Sutherland, New Zealand's most illustrious numismatist and founder of the Royal Numismatic Society of New Zealand, died on September 13, 1967. He was born on South Island on December 4, 1900,

and was associated with the New Zealand Railways during his early manhood. In 1927 he was appointed to the staff of Hansard, publisher of the official records of Parliament, and from 1957 until his retirement in 1962 was the editor-in-chief of Parliamentary debates.

An early and strong interest in numismatics prompted Sutherland to call a meeting of numismatists in Wellington on July 20, 1931, at which the RNSNZ was founded. He served as its secretary for 15 years, as president for 3 years beginning in 1946, and as a vice president for several years thereafter. He was the editor of the society's *New Zealand Numismatic Journal* from its inception in 1947 until 1957, and served on the Society's council from 1931 until his death. His membership in ANA dated from 1934.

He was an early advocate of decimal coinage and represented the society on a 1933 Government Coinage Commission. Again in 1957 he was appointed to this commission and later was a member of the Decimal Coinage Design Advisory Committee. At the time of his death he was working on a revised edition of his *Numismatic History of New Zealand* (now out of print) which is to be completed and published as a memorial to him. Survivors include his widow, Edith, son Allan and his father, then 99 years of age. — Condensed from the *NZN Journal* by GBS.

Edwin W. Williams ANA 832

Edwin W. Williams died in Christ Community Hospital, Oak Lawn, Ill., on September 22 following several months of illness. At the time of death he was the second oldest living member of the association, in years of membership. Records of the year and place of his birth are not absolute, but most of his life was spent in Chicago where he was purchasing

agent for the Chicago Evening American newspaper and, from 1945 until his retirement in 1965, with Consolidated Freightways, Inc., where he was senior rate clerk.

Association records show that Mr. Williams became member 832 in October of 1906, and that he received the gold 50-year membership medal in 1959. He was an avid collector and his interests were varied. Although not a highly communicative man, he is known to have once had an outstanding collection of Chinese coins, and to have furnished much information to E. A. King for his 1926 book on Masonic chapter pennies. He was a member of the Token and Medal Society, and member 1808 of the Society of Paper Money Collectors. His name is listed among the contributors to the Error and Misprint section of the *Donlon Catalog of United States Small Size Paper Money*. In his younger days Edwin was an expert roller-skater, winning many medals at Chicago's old White City amusement park.

Three years prior to the start of an active drive for an ANA building fund, Mr. Williams presented \$100 to the association for this purpose. At the 1961 convention in Atlanta he thus became the first individual member to contribute to this project which resulted six years later in the opening of the Colorado Springs home and headquarters. And thus did Edwin Williams, who considered himself an ordinary member who had seen the association grow from a few hundred to twenty-five thousand strong, show his faith in its future.

Survivors include his widow, Margaret; their two daughters Diana Federici and Phyllis Pitts, and a son, Lance Corporal Edwin Williams Jr. of the U.S. Marines; and, by a former marriage, Edwin Williams Jr. and Romaine Toth. He leaves seventeen grandchildren and two great-grandchildren. — GBS and JWO.

Headquarters Visit

Meet Sylvia Stallings

Meet Mrs. Sylvia Stallings, our newest employee and only native Coloradoan to join the home and headquarters staff since it was established in Colorado Springs just over two years ago.

Born in Pueblo where she still lives with her husband, she commutes 80 miles daily to perform her duties centering around the approximate 1,200 member coin clubs. These include correspondence, the visual education program and handlettering the educational award certificates.

Sylvia attended Southern Colorado State College in Pueblo for two years where she majored in office administration. Her husband presently is enrolled as a senior. In keeping with her native Coloradoan status, she's an ardent skiing enthusiast and enjoys all winter sports. She's also our Indian head cent collector. Welcome, Sylvia!

Notes & Queries

All this for a Medal!!

"It looks like a run on the bank, the kind they had in the 1930s," said a bystander as he scanned the long line snaking around the corner of the Delaware Trust Company of Wilmington, Delaware.

"I've never seen anything like it," declared Jules Reiver, board member of the Wilmington Coin Club and a coin collector for 45 years.

They were describing the scene outside the bank recently when hundreds of people had lined up waiting for the Delaware Memorial Bridge commemorative medal to go on sale. The long line had started queuing up at 5:30 in the morning, and by 10 a.m., when the medal went on sale, it extended along two downtown streets leading to the bank's office.

The medal, designed by Gilroy Roberts and struck by The Franklin Mint in sterling silver, bronze, and aluminum, was issued by the Wilmington Coin Club with the authority of the Delaware River and Bay Authority. Limited editions were offered for sale to the public by the Delaware Trust Company on a non-profit basis.

Less than an hour and a half after the sale began, the silver edition of the medal, priced at \$11.75 and available only at the bank's main office, was sold out. The bronze edition sold for \$2, and the aluminum for 50-cents. Both were available at the bank's branch offices, and most were gone by the end of the business day.

During the ceremonies dedicating the Second Delaware Memorial Bridge, Delaware Governor Charles L. Terry presented a silver and bronze proof set of the medal to Vice President Hubert H. Humphrey. The Vice President's initials were engraved on each coin-medal.

Detroit Money Museum Features Platinum Coins

The Money Museum of National Bank of Detroit recently placed on public display a selection of choice German and Russian platinum coins. The display includes one of the eleven rare Russian twelve-ruble coins issued in 1836, a three-ruble piece of the same year and a six-ruble coin of 1830. dent of Germany from 1925-1932 is featured beside a two mark German pattern piece dated 1926.

On rare occasion platinum was used by the craftsmen of ancient Egypt, and by South American Indians. In spite of these early experiences with platinum, man had little knowledge of the metal until Sir William Watson, an English physicist, announced its discovery in 1750.

Platinum was discovered in 1819 in the Ural mountains some 500 miles east of Moscow, and in Borneo in 1831. The Russian mint at St. Petersburg (now Leningrad) produced platinum coins for circulation by imperial decree from 1828 to 1845, but they were discontinued because the public preferred gold. The Soviet Union still produces 95% of the world's platinum.

The Money Museum, located on the mezzanine of National Bank of Detroit's Main Office, corner of Woodward Ave. and Fort Street, is open from 9:30 a.m. to 4:30 p.m. Monday through Thursday and until 5:30 p.m. Fridays except legal holidays. There is no admission charge.

51,004 Shares of Common Stock Offered

Public offering of 51,004 shares of the Franklin Mint, Inc. common stock is being made at \$80.00 a share by underwriters headed by C. E. Unterberg, Towbin Co. Of the shares being offered, 30,000 represent new financing by the company, 20,500 are being sold by certain shareholders, and 504 are to be obtained by exercise of warrants to be purchased by the underwriters.

The company will use its share of the net proceeds to reduce bank loans incurred, to increase the company's inventory of silver, to purchase additional equipment, to purchase land for a new plant, and for working capital.

The Franklin Mint, Inc., headquartered in Yeadon, Pennsylvania, a suburb of Philadelphia, was, until June 1968, named General Numismatics Corporation. The company designs, manufactures, and markets tokens, medals and other coined products in precious and non-precious metals. It is listed on the National Stock Exchange.

Francis D. Lyon, first president of ACE, presents ANA historian, Jack W. Ogilvie, with a life membership in the American Cinema Editors, as Mrs. Helga Ogilvie watches admiringly.

ANA Historian Honored in Hollywood

Veteran film editor, Jack W. Ogilvie, who in 1950 headed a group of top members of his profession in organizing the American Cinema Editors was recently honored by his fellow ACEs at a testimonial luncheon attended by over eighty persons including a group of his present co-workers from the U.S. Air Force.

Francis D. Lyon, first president of that professional society and now a motion picture producer-director, was principal speaker and presented Ogilvie with an honorary life membership for his outstanding work in initiating the organization and furthering its aims and goals. He was the first executive secretary of the ACE and was instrumental in recruiting 168 top Hollywood film editors as charter members. This represented approximately eighty percent of the editors who were aces in their profession.

Ogilvie admits that this successful venture came into being mostly due to his knowledge of the doctrine and principles laid down by Dr. George F. Heath and his followers in founding the American Numismatic Association as an alliance of kindred pursuits. The ACE table of organiza-

tion, its by-laws and credo follow closely to those of the numismatic organization. Like Dr. Heath of the ANA, Ogilvie is member number one of the ACE.

Current Strikes

Listed below are a number of sources from which commemorative medals and tokens may be ordered. The abbreviated form of listing is to enable the cataloguing of as many as possible.

1968. 34mm goldene souvenir half-dollar. Obverse shows three panels depicting history of town. 75¢ post-paid from VanderBie's Hardware, Lime Springs, Iowa.

THE MEDAL COLLECTORS' CORNER

by Virginia Culver, ANA 39457

With the close of the 77th Anniversary Convention of the American Numismatic Association held in San Diego, California, several medals depicting scenes of San Diego emerged. These will be well documented for future collectors, but it remains that medals of the past occur occasionally which are unknown to collectors of today.

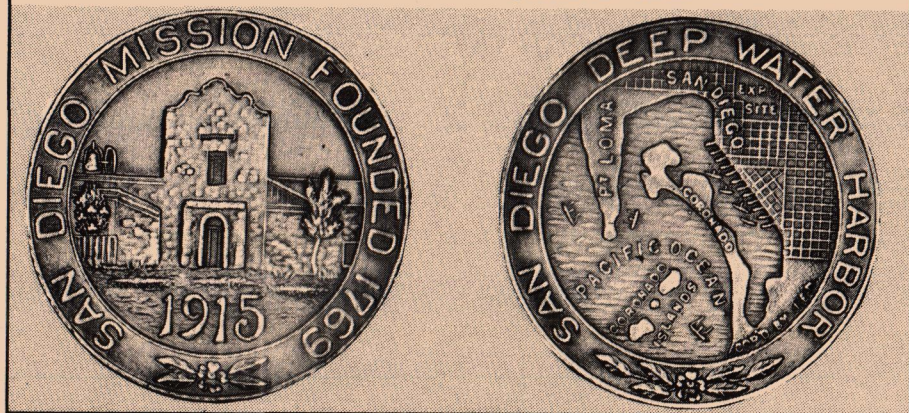

One such medal came to light four years ago. It was obviously struck for the Panama-California Exposition held in San Diego in 1915; yet there was no record of this medal in any exposition listings, and no collector had seen the medal before nor were there any other copies known. It is struck in silver and is 38 mm in size, qualifying as a "so-called" dollar, be-

cause it is commemorative. The obverse pictures the San Diego Mission which was founded in 1769 and the reverse is a map of the San Diego harbor showing the site of the 1915 exposition. In small letters on the reverse is found, "Cop'd by JED." The obverse boldly carries the date of 1915.

In 1914 it is recorded in one of the issues of *The Numismatist* that a specimen of this medal was sent to the American Numismatic Association's cabinet of medals. Unfortunately, through the years this medal became lost at some time or other and no trace can be found.

For four years this specimen has remained unique until the ANA convention when a second specimen was brought to my attention. This has brought new hope that perhaps the mystery which surrounds this lovely exposition medal may come to light. It would be most helpful to know if other specimens of this medal are in collections at this time and any information known could be passed on to this writer.

Public Auction Sale of GOLD COINS OF THE WORLD

December 6th, 7th, 1968

This outstanding Collection of Gold Coins of the World was formed over a period of many years, with the goal of obtaining pieces from as many areas as possible. There is a coin representing nearly every country in existence during the 19th and 20th Century; and, in addition, a substantial selection of 18th Century issues. The Latin American series is particularly well represented.

In the collection you will find many of the Classic Gold Rarities, some of which are listed below:

- United States** Over 50 lots, including Panama-Pacific Round and Octagonal \$50.00 Gold, California \$50.00 Gold, and early U. S. Gold.
- Latin America** Over 300 lots, including such rarities as the Argentina 1813 8 Escudos; Bolivia 1868 Onza; Peru 1840 4 Escudos; Granadine 1859 20 Pesos; Guatemala 1755, 1817 8 Scudos; Mexico Treasure Coins of 1713; Oaxaca 60 Pesos; complete set of Salvador, etc.
- Africa & Near East** Over 50 lots, including a splendid group of Egyptian 500 Piastres.
- Far East** Approximately 50 lots, including a complete set of Korea; German New Guinea 20 Marks; Siam, Mongkut Double Tical.
- Europe** Nearly 500 lots, including a splendid group of English 2 and 5 Guineas; 1826 and 1839 5 Pounds; Russian 1876 25 Roubles; 1908 25 Roubles; 1902 37 1/2 Roubles; nearly a complete set of Czechoslovakia; South Africa Burgers Pond; Greece 1876 100 Drachma; complete set of Montenegro.

These are but a few of the Classic and Important pieces in this collection of over 1000 Gold Coins.

All gold coins advertised are legally held.

SEVENTY-THOUSAND-MILES "TYPE" COINS

What is a "Type" coin? It is a common-date piece suitable for a collection of just one each design and kind of coin issued — omitting dates and mints. A nickel type set, for instance, might comprise one Half-Dime, two Shield 5c (with and without rays), two Liberties (with and without c), two Bison 5c (mound and plane) and two Jeffersons, peace and war. A type collection fits on office wall in frame, or at home. It makes quite a showpiece and conversation piece. There are four general sorts of type set: the 20th Century Type Set, the 100-Years Type Set, the Sesqui. (150 year) Type Set, and the "Gran'pappy" Type Set from 1793.

Since September 1966 I motored 70,000 miles in 45 states after the best-condition "Type" coins among the historical coins of America. The best found went into a reserve box, separate from stock in trade. I drew from this reserve only to trade for a choice piece. At length my reserve box became a serious mistake not to keep a total secret. Those who looked therein went rabid for anything and everything in the box, breaking us both out in a sweat, ending in a boil over my refusal to put prices on reserve items. Such is the allure and magnitude of the memorable pieces of 70,000 miles. It is these coins — kept together intact at great pain and strain — which debut in this ad. This ad isn't in any other current periodical. Since truly choice coins are nearing an average of "extinct" at the average neighborhood shop, one ad should be ample work for me to handle. These are my best coins in 16 years advertising, as they well should be, stemming from two years beating the bushes for cherries from one end of the nation to the other.

TERMS OF SALE

(1) B&D grading. BRILLIANT UNCIRCULATED means full mint frost, natural bright colors, and no buffing, wear, spots, bag-scrapes or weak strikes with exceptions described. Elaborating Sheldon's PENNY WHIMSY book grades, MS-60 (Mint State 60) here means a wholly presentable, delightful uncirculated coin. MS-62 means extra quality, MS-65 select, MS-67 exceptional quality, MS-68 incredible quality, MS-69 stupendous quality, MS-70 a cameo gem, unblemished and splendidly colored — a coin of a lifetime and a candidate as finest known. Gem quality commences at MS-67.

(2) Payment with order — clearance time for personal checks — money order payers may deduct \$1 for their errand and cost of money order.

(3) Common carrier shipment to nearby — airmail to out of state.

(4) Full refund for returns intact within 7 days of your receipt. Please indicate (A) refund, (B) duplicate shipment wanted, or (C) other wants seen in ad.

These coins have been examined over and over in DAYLIGHT or strong ELECTRIC LIGHT and not phony fluorescent light, soft light, saloon glimmers or bourse room stratosphere bulbs. The coin washing science provided a means to save deteriorating coins but also a dream world for wishful thinkers. If any coins among these were washed they were Uncirculated before they were washed, and still are Uncirculated, and don't look washed. My photos speak for the class of coins I offer.

FULL BLAZING MINT RED UNCIRCULATED HALF CENTS

DRAPED BUST HALF CENTS (Common dates which brought \$300 ea. at Merkin's auction.)

1804 (pl. 4) (no) gold and rose, MS-65	250.00
1804 (X4) (st.) gold and rose, micro hair-lines, debatable MS-60	180.00
1804 (X4) (st.) red and gold, MS-60	210.00
1804 (X4) (st.) gold, rose, amber, album tint, rim defect, debatable MS-60	180.00
1804 (sp. chin) gold and a brilliant, pearly olive, MS-60	210.00
1804 (sp. chin) a weird, entrancing ivory and azure MS-60	210.00
1806 (sm. 6) (no) pearly red MS-65	250.00
1806 GEM (sm. 6) (no) red, ivory, gold. The bust appears as if it were set in a fire opal. MS-67 and the prettiest of my Draped Bust ½c	300.00

1806 (sm. 6) (no) red GEM, brilliant pearly olive periphery. MS-67 and the most sharply struck of my Draped Bust ½c. **PLATE**..... 300.00

NOTE: Following 4 pcs. rv. die weakly hubbed, hence ½ wk. leaves.

1806 (lg. 6) (st.) ivory, olive, gold and amber. Two obv. planchet flakes, so debatable MS-60	180.00
1806 (lg. 6) (st.) mellow rose bust on gold and olive field, MS-60 (65 but for leaves)	210.00

1806 (lg. 6) (st.) red MS-60 (65 but for leaves) 210.00

So photogenic it rates **PLATE**.

1806 (lg. 6) (st.) golden and pearly apricot, MS-60 (65 but for leaves) ... 210.00

MOST OLDER COIN COLLECTORS PREFER A RAMBLING VARIETY OF COLORS — OR A GIVEN COLOR TO FIT A SET — TO A BARE, UNTARNISHED METAL COLOR WHICH IS PRONE TO QUESTION AS LAUNDERED. That is why colors are listed for you here at much expense, not because I'm a windbag about color. (Stamps are collected by colors.)

1818 GEM, pearly gold and rose, MS-67 100.00

1834 red MS-60. As classic an example of the double profile on early American coins as the "filled die" theory was a monumental collector misspeculation as to the cause of the 1922 plain cent and the 1937 3-legged nickel. **PLATE**. 125.00

SLIM NECK CORONET CENTS
(Common dates)

Term explained at 1839 c.

1836 rose, gold, red, trace olive, MS-60 75.00

1837 (Beads) red, gold, rose, MS-65. 85.00

1838 rose, ivory, red, azure, MS-60... 75.00

UNDRAPE-NAPE CORONET CENT

1839 GEM blazing mint red, rose, trace of emerald. Rv. pearly apricot. A TOWERING MS-69!

THE ONLY PARTIAL-YEAR TYPE COIN AFTER 1798.

In the best large cent collections with abundant mint red this one shows up in scarcely better a color than a truck underside. In presenting this incomparable multicolor 1839 I wish to admonish the numismatic hierarchy to stop calling Coronet Cent Types "Silly Head" and "Booby Head." Cryptic, undescriptive and scornful, these epithets speak poorly of the collecting fraternity. Let's call these cents Nero Neck (1816-1835) Slim Neck (1835-39) Undraped Nape (1839) and Roll Curl (1839-57) and end the merry jape. **PLATE** 500.00

A Catalog of Modern World Coins

Whitman's authoritative Modern World Coins, by R. S. Yeoman, covers the approximate century of 1850-1964. This latest edition reflects a continuing program of study and reevaluation. Many new illustrations are provided, with more than the usual number of changes. Issues of various nations have seen marked shifts in values and data on a number of countries, such as Afghanistan, Egypt and Siam, have been greatly revised and expanded. Conditions listed are those which collectors are most likely to encounter. **\$5.00. No. 9053.**

OBVERSE

ONE ERG CELESTIA ENERGY

Lowest Face Value
of any coin
in 3000 years:

REVERSE

One Twenty-Thousandth of a U.S. Cent!

Dated 1968. Issued by Nation of Celestial Space, James Thomas Mangan, Prime Minister. Said National Aeronautics and Space Administration of our first Space Coin, the Celestia Joule: "The idea of basing a currency on energy, rather than upon gold or silver, is interesting and appears logical." The joule equals 10,000,000 (ten to 7th power) ERGS. Introduced at \$5, today's price on this rare coin is \$50.00.

Rating an Erg at One Twenty-Thousandth of a penny, it would take 20,000 of these coins to equal One U.S. Cent in analogous value.

U.S. Patent Office Registrations

The Erg coin is circular, one inch in diameter, in "goldene" metal lacquered. Shipped in plastic transparent display case. Mailed postpaid, cash with order. The obverse reads: One Erg Celestia Energy, "Magnanimity" 1968. The reverse is a reproduction of the Grand Seal of the Nation. Both sides have U.S. Pat. Off. Registrations.

Nation Founded in 1948

Celestia, the nation, was founded in 1948 by James Thomas Mangan. With space, he claimed all the energy in space, the only such claim in history. The charter of his nation was recorded by the Recorder of Deeds and Titles in Cook County, Illinois, January 18, 1949. He bases his Erg Coinage on the energy in space.

How much energy is an ERG? A DYNE is enough energy to push a GRAM forward a centimeter in a Second while an ERG is enough energy to PUSH A DYNE BACKWARD A CENTIMETER IN A SECOND.

Cromwell's Cousin

John Hampden, born in 1595, is today chiefly remembered for his refusal to pay Ship Money, a tax imposed by Charles I for the raising of a fleet.

This was by no means his only claim to fame. He was a cousin of Oliver Cromwell, entered Parliament at the age of 26 and was instrumental in the prosecution of Stafford. With the outbreak of the Civil War he raised troops for Parliament but in a skirmish with Prince Rupert's army at Chalgrove Field in 1643 he was mortally wounded.

This superb round plate of gold bears a fine portrait of Hampden stamped in imitation of engraving.

This is just one example from our large stock of fascinating medallic pieces available for purchase.

RECENTLY,

I ACQUIRED A LARGE COLLECTION OF GOLD WHICH INCLUDED A QUANTITY OF CHARLOTTE, DAHLONEGA, AND NEW ORLEANS MINT MARKS. Some of this was from a hoard found in the wreck of a government payroll ship that was sunk off the Florida Coast during the Seminole wars. Much of it is uncirculated — some pieces have minor scratches made by an amateur diver unfamiliar with removing coral encrustations. Coins marked with an asterick (*) were in this find.

*"Some Men See Things As They
Are And Say - Why?
I dream things that never were
and say - why not?"*

These words were spoken by a man dedicated to his country and fellow man. A moment of madness took him from our midst; his dedication lives on.

The Robert F. Kennedy Memorial Medal

by
Presidential Art Medals, Inc.

History can now only speculate as to Robert Kennedy's greatness. It can be said, however, that in the strictest traditions of greatness, he never turned from a challenge. This in itself earned Robert Kennedy a place among those to whom Presidential Art Medals pays tribute.

John F. Kennedy

The Robert F. Kennedy Memorial Medal is an appropriate companion to the John Kennedy Medal issued in 1961, by Presidential Art Medals. Both medals were designed and sculptured in bas relief by Ralph J. Menconi, Pleasantville, N.Y., and are struck by the Medallie Art Company.

These medals come in appropriate desk holders. A double holder is also available to display the Robert Kennedy and John F. Kennedy medals together.

The Robert F. Kennedy Memorial Medal is issued as follows:

15,000 pieces serially numbered pure silver
.999 + 1 1/2" diameter \$15.00 each
Unnumbered pieces antique bronze 1 1/2"
diameter \$ 5.00 each

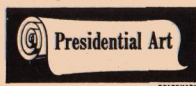

Sets(s) John Kennedy-Robert Kennedy Silver
medals in desk set double holder. \$30.00 each

RARE HAWAIIAN COINS AT DISCOUNT PRICES

Low mintage. Listed in the Red Book. Many melted, especially dollars of which over 400,000 were melted, according to the records at San Francisco. Many additional coins of each denomination were lost to the sea during a revolt by the people against the government in 1893. Few were left. In fact — during our visit to Hawaii we searched the Islands to locate Hawaiian coins and discovered to our amazement that few people living on the Islands even knew that these coins existed. Most inhabitants were amazed when we showed them coins struck by the U. S. Mint for circulation in Hawaii. They are not only no longer in circulation, but few Hawaiians realize that at one time they had their own coinage. Check your Red Book — Excellent investment potential per dollar invested.

ARE YOU MISSING ONE FROM

1961

... the year of serialized articles? In addition to those listed below, each issue has a "Southern" flavor — featuring articles of interest to Confederate and Civil War enthusiasts. The design was intention in that it coincided with ANA's 70th convention held in Atlanta, Ga., and the commemoration of the Civil War Centennial. Here is your opportunity to purchase just one issue you may have missed or obtain the complete year to have bound.

Cost is a nominal 75c per copy when ordered singly, or \$6.00 for the entire year. Postpaid, of course. Selected articles include:

JANUARY: "Let's Have New Commemorative Coins" by Dr. Charles E. Weber.

FEBRUARY: "Survey of Medieval Iberian Coinages" by J. F. Lhotka and P. K. Anderson. Continued in March through October, December. Concluded in 1962 issues.

MARCH: "Paper Money of Indiana" by Dr. E. D. Skeen. First part in February issue; continued in July, August, September, November, January and February issues.

APRIL: "The \$100 Interest Note of 1862" by Philip H. Chase.

MAY: "The Confederate States of America: Its Monetary Problem" by Ted N. Weissbuch. Concluded in June issue.

JUNE: "Contemporary 1804, 1805 Silver Dollars Authenticated" by Alfred J. Ostheimer, 3rd.

JULY: "Paper Money of China" by Edward Kann. Continued in August, and September issues.

AUGUST: "Confederate Treasury Notes: Spurious and Faked Rarities" by Philip H. Chase.

SEPTEMBER: "United Provinces of River of Silver: Its Coinage" by Alan K. Craig.

OCTOBER: "Demise of the 'Flickers'" by M. David Orrahood.

NOVEMBER: "Swedish Bank Notes" by Charles Ellsworth.

DECEMBER: "Jose Rizal in Numismatics" by Dr. Mena Crisologo.

EXPO "67" OFFICIAL ISSUE AMERICAN TO CANADIAN CURRENCY EXCHANGE TOKEN

CENTENNIAL

BILINGUAL

These tokens were ordered by the Canadian Corporation for the 1967 World Exhibition and were in use for less than one week. One of these tokens was given for each U. S. Dollar exchanged for Canadian. The banks on the Expo site would redeem them for cash at the daily rate of exchange. The banks found this too time consuming and refused to cooperate, making it impossible to continue.

THESE UNIQUE TRADE TOKENS ARE OFFERED AT \$1.00 EACH.

The total issue was purchased by us and because of the small quantity involved we must limit orders to a maximum of ten tokens per order.

WE ONLY SELL HOLDERS — NOT COINS BUT — WE CAN SHOW YOU HOW TO TELL THE STORY OF 19TH CENTURY U. S. WITH ONLY 28 COINS!!!

The new CAPITAL PLASTIC holder has solved the TYPE SET problem of 19th Century coinage. By including 2 - half cents, 6 - cents, a 2 cent coin, 2 - three cent pieces, 4 - five cent coins, 4 dimes, a twenty-cent piece, 3 quarters, 3 halves and 3 dollars, the representative coins of early America are displayed.

This clear and durable Polystyrene case is secured with plastic bolts that prevent buckling and do not interfere with the primary purpose of an eye appealing display exhibit.

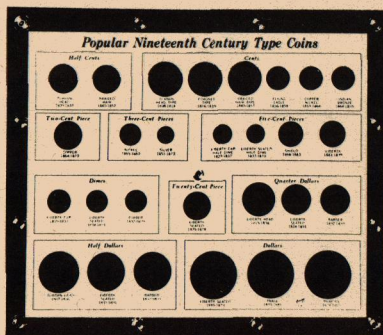

The price for this sho-case 10 x 12 No. CS-43 is only . . . \$3.49. A coin case displays, protects and emphasizes the appeal of your collection. On orders under \$10, please send 75c for postage and handling.

NEW AND RECENT ISSUES

The demand for new and recent issues is increasing daily, and as one of the first dealers to bother with them, they represent a substantial part of my lists. Each month I list the new arrivals (both new types and new dates of old types) along with older coins received during the month.

My prices are reasonable, and while we do not have everything, sooner or later most new items reach us.

It will pay you to write for my stock list (which contains recent issues along with older coins) and the monthly list, which is up-to-date on new issues when released. If you are a dealer, please write on letterhead for the current wholesale list. No charge, of course.

GOLD STELLA

The Coin That Was Never Spent

1879 FLOWING HAIR BRILLIANT PROOF,
struck in Aluminum — Judd 1637, Rarity 7
with only 4 to 12 made. This Stella is far
rarer than the one struck in gold (415
made) but does not sell for as high a
price. This is one of America's most
famous coins. It was to have circulated
throughout the world as an international
coin similar to the trade dollar. My —
how things have changed. Complete with
holder and pouch — \$1985.00.

RETIREMENT

is an idea that I have been toying with for several years. I am now pretty well decided that I would like to get away from the demands of a busy store and spend my remaining years in travel and relaxation. I have a nice store, well situated in the City of Bradenton, but on a busy highway. We buy and sell coins and supplies, paper back and hard cover books, and small antique items, such as old watches, jewelry, and other junkie. I would be glad to work with a responsible buyer, teaching him the business and remaining on call until he is established. I will sell the business without the extensive coin inventory to a responsible person and will consign the coins that are necessary until he has built his own inventory. A minimum of \$20,000.00 cash plus good common sense, honesty, and good credit will be necessary. This is ideal for a compatible couple.

Two authoritative Whitman coin books long accepted as standard references

Whitman's library of coin reference books, some 40 in all, is by far the largest of any numismatic publisher. Among these 40 books, two stand out as absolute necessities for the collector of United States coins. They are:

The Red Book

A Guide Book of United States Coins, by R. S. Yeoman, popularly known as the Red Book. Yearly editions provide continuously updated retail values of all U. S. coins since 1616.

The Blue Book

A Handbook of United States Coins, also by Mr. Yeoman, usually referred to as the Blue Book. The standard reference book for average prices dealers pay for your coins, with a new edition each year.

These two books, along with over 350 Whitman items for the coin collector, may be found at your dealer's store.
